

(OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35). A copy of each ICR, with applicable supporting documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Ira Mills on (202) 693–4122 (this is not a toll-free number) or e-mail: [mills.ira@dol.gov](mailto:mills.ira@dol.gov).

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL, Office of Management and Budget, Room 10235, Washington, DC 20503, (202) 395–7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
  - Enhance the quality, utility, and clarity of the information to be collected; and
  - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

*Agency:* Employment and Training Administration.

*Type of Review:* Extension with minor revision of a currently approved collection.

*Title:* Quantum Opportunity Program Demonstration Net Impact Evaluation.

*OMB Number:* 1205–0397.

*Frequency:* Other; Once in 2004/2005.

*Affected Public:* Individuals or households.

*Number of Respondents:* 842.

*Number of Annual Responses:* 842.

*Total Burden Hours:* 282.

*Estimated Time Per Response:* 20 minutes.

*Total annualized capital/startup costs:* \$0.

*Total annual costs (operating/maintaining systems or purchasing services):* \$0.

*Description:* This revision to the information collection will provide for a third, and final, wave of the survey to

be completed approximately 106 months (almost 9 years) after random assignment of the youth in the research sample. It will allow for an analysis of the impact of QOP on participants' outcomes including education and training, employment, earnings, public assistance participation, childbearing, and other behaviors and activities. The finding will be directly relevant for the future development of employment and training policy for youth at risk of dropping out of high school.

## DEPARTMENT OF LABOR

### Bureau of Labor Statistics

#### Proposed Collection, Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the "Census of Fatal Occupational Injuries." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

**DATES:** Written comments must be submitted to the office listed in the Addresses section of this notice on or before October 25, 2004.

**ADDRESSES:** Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number (202) 691–7628 (this is not a toll free number).

**FOR FURTHER INFORMATION CONTACT:** Amy A. Hobby, BLS Clearance Officer, telephone number (202) 691–7628. (See Addresses section.)

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Bureau of Labor Statistics (BLS) was delegated responsibility by the Secretary of Labor for implementing Section 24(a) of the Occupational Safety and Health Act of 1970. This section states that "the Secretary shall compile accurate statistics on work injuries and illnesses which shall include all disabling, serious, or significant injuries and illnesses \* \* \*"

Prior to the implementation of the Census of Fatal Occupational Injuries (CFOI), the BLS generated estimates of occupational fatalities for private sector employers from a sample survey of about 280,000 establishments. Studies showed that occupational fatalities were underreported in those estimates as well as those compiled by regulatory, vital statistics, and workers' compensation systems. Estimates varied widely between 3,000 and 10,000 annually. In addition, information needed to develop prevention strategies were often missing from these earlier programs.

In the late 1980s, the National Academy of Sciences study, *Counting Injuries and Illnesses in the Workplace*, and the report, *Keystone National Policy Dialogue on Work-Related Illness and Injury Recordkeeping*, emphasized the need for the BLS to compile a complete roster of work-related fatalities because of concern over the accuracy of using a sample survey to estimate the incidence of occupational fatalities. These studies also recommended the use of all available data sources to compile detailed information for fatality prevention efforts.

The BLS tested the feasibility of collecting fatality data in this manner in 1989 and 1990. The resulting CFOI was implemented in 32 States in 1991. National data covering all 50 States and the District of Columbia have been compiled and published for 1992–2002, approximately eight months after each calendar year.

The CFOI compiles comprehensive, accurate, and timely information on work-injury fatalities needed to develop effective prevention strategies. The system collects information concerning the incident, demographic information on the deceased, and characteristics of the employer.

Data are used to:

- Develop employee safety training programs;
- Develop and assess the effectiveness of safety standards; and

- Conduct research for developing prevention strategies.

In addition, States use the data to publish State reports, to identify State-specific hazards, to allocate resources for promoting safety in the workplace, and to evaluate the quality of work life in the State.

**II. Desired Focus of Comments**

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or

other forms of information technology, e.g., permitting electronic submissions of responses.

**III. Current Action**

In 2002, 5,534 workers lost their lives as a result of injuries received on the job. This official systematic, verifiable count mutes controversy over the various counts from different sources. The CFOI count has been adopted by the National Safety Council and other organizations as the sole source of a comprehensive count of fatal work injuries for the U.S. If this information were not collected, the confusion over the number and patterns in fatal occupational injuries would continue, thus hampering prevention efforts. By providing timely occupational fatality data, the CFOI program provides safety and health managers the information necessary to respond to emerging workplace hazards.

During 2002, the BLS Washington staff responded to over 1,000 requests for CFOI data from various organizations. (This figure excludes requests received by the States for State-specific data.) In addition, the BLS Website averaged about 4,500 users per month.

Washington staff also responded to numerous requests from safety organizations for staff members to participate in safety conferences and seminars. The CFOI research file, made available to safety and health groups, is being used by 15 organizations to conduct studies on specific topics, such as fatalities involving forklifts, powerline electrocutions, homicides, falls from scaffolds, highway construction fatalities, fatalities to Hispanics, fatalities to young workers, and safety and health program effectiveness. (A current list of research articles and reports that include CFOI data can be found in the BLS Report 970, dated September 2003, Appendix I. Copies of this report are available upon request.)

*Type of Review:* Extension of a currently approved collection.

*Agency:* Bureau of Labor Statistics.

*Title:* Census of Fatal Occupational Injuries.

*OMB Number:* 1220-0133.

*Affected Public:* Business or other for-profit; Individuals or households; Not-for-profit institutions; Farms; Federal Government; State, Local or Tribal Government.

*Frequency:* On occasion.

Form	Total respondents	Total responses	Estimated time per response (minutes)	Estimated total burden (hours)
BLS CFOI-1 .....	1,125	1,125	20	375
Source Documents .....	220	26,625	10	4,438
Totals .....	1,345	27,750	10	4,813

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 19th day of August, 2004.

**Cathy Kazanowski,**  
Chief, Division of Management Systems,  
Bureau of Labor Statistics.

BILLING CODE 4510-24-P

**DEPARTMENT OF LABOR**

**Occupational Safety and Health Administration**

[Docket No. ICR-1218-0095(2004)]

**Concrete and Masonry Construction; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection Requirements (Paperwork)**

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Request for public comment.

**SUMMARY:** OSHA solicits comments concerning its request for an extension of the information collection requirements contained in the Standard on Concrete and Masonry Construction (29 CFR part 1926, subpart Q).

**DATES:** Comments must be submitted by the following dates:

*Hard Copy:* Your comments must be submitted (postmarked or received) by October 25, 2004.

*Facsimile and electronic transmission:* Your comments must be received by October 25, 2004.

**ADDRESSES:** You may submit comments, identified by OSHA Docket No. ICR-1218-0095(2004), by any of the following methods:

*Regular mail, express delivery, hand-delivery, and messenger service:* Submit your comments and attachments to the OSHA Docket Office, Room N-2625, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2350 (OSHA's TTY number is (877) 889-5627). The OSHA Docket Office and Department of Labor hours of operation are 8:15 a.m. to 4:45 p.m., e.t.

*Facsimile:* If your comments, including any attachments, are 10 pages or fewer, you may fax them to the OSHA Docket Office at (202) 693-1648.
