

without right of hearing for failure to comply adequately with all terms of the construction permit or the provision of 47 CFR 73.1690(c) for a modification of license application, or in order to resolve instances of interference. The FCC may also require the filing of a construction permit application to bring the station into compliance with the Commission's rules and policies. 47 CFR 73.1620(f) requires licensees of UHF TV stations, assigned to the same allocated channel which a 1000 watt UHF translator station is authorized to use, to notify the licensee of the translator station at least 10 days prior to commencing or resuming operation and certify to the FCC that such advance notice has been given. 47 CFR 73.1620(g) requires permittees to report any deviations from their promises, if any, in their application for license to cover their construction permit (FCC Form 302) and on the first anniversary of their commencement of program tests. The notification in § 73.1620(a) alerts the Commission that construction of a station has been completed and that the station is broadcasting program material. The notification in § 73.1620(f) alerts the UHF translator station that the potential of interference exists. The report in § 73.1620(g) stating deviations are necessary to eliminate possible abuses of the FCC's processes and to ensure that comparative promises relating to service to the public are not inflated.
