Each MIST series involved in the proposed substitutions offers up to three classes of shares, two of which (Class A and Class B) are involved in the proposed substitutions. Some of the proposed substitutions involve only one class of shares; others involve both Class A and Class B shares. MIST series Class A Shares have not adopted a plan pursuant to Rule 12b-1 under the Act. Each MIST series Class B shares has adopted a Rule 12b-1 distribution plan whereby up to .50% of a Fund's assets attributable to the Class B shares may be used to finance the distribution of the Fund's shares. Currently, the 12b-1 fees for the Class B shares of each MIST series are .25%.

31. MetLife Investors Distribution Company, an affiliate of MetLife, is the principal underwriter for MIST. Met Investors Advisory LLC, an affiliate of MetLife, serves as the investment adviser to each portfolio of MIST. Pursuant to an exemptive order issued to New England Funds Trust I, et al., Met Investors Advisory LLC is authorized to enter into and amend subadvisory agreements without shareholder approval under certain conditions (the "Multi-Manager Order").

32. The following Replacement Funds are portfolios of MIST: Lord Abbett Growth and Income Portfolio (subadvised by Lord Abbett & Co. LLC ("Lord Abbett")); Third Avenue Small Cap Value Portfolio (sub-advised by Third Avenue Management, LLC); MFS Research International Portfolio (subadvised by Massachusetts Financial Services Company ("MFS")); Oppenheimer Capital Appreciation Portfolio (sub-advised by Oppenheimer Funds, Inc.); T. Rowe Price Mid-Cap Growth Portfolio (sub-advised by T. Rowe Price Associates, Inc. ("T. Rowe Price")); Lord Abbett Bond Debenture Portfolio (sub-advised by Lord Abbett); PIMCO Total Return Portfolio (subadvised by Pacific Investment Management LLC); Lord Abbett Mid-Cap Value Portfolio (sub-advised by Lord Abbett); and Janus Aggressive Growth Portfolio (sub-advised by Janus Capital Management LLC).

33. Met Investors Advisory LLC has entered into agreement with MIST whereby, for the period ended April 30, 2004 and any subsequent year in which the agreement is in effect, the total annual operating expenses of the following Replacement Funds (excluding interest, taxes, brokerage

commissions and Rule 12b-1 fees) will not exceed the amounts stated. These expense caps may be extended by the investment adviser from year to year as follows:

1.00%

1.10%

0.95%

0.90%Janus Aggressive Growth Portfolio 34. Met Series Fund is registered under the Act as an open-end management investment company of the series type, and its securities are registered under the Securities Act of 1933. Met Series Fund currently offers 36 separate investment portfolios, six of which would be involved in the proposed substitutions. Each Met Series Fund series involved in the proposed substitutions has up to three classes of shares, two of which (Class A and Class B) are involved in the proposed substitutions. Some of the proposed substitutions involve only one class of shares; others involve both Class A and Class B shares. Met Series Fund series Class A Shares have not adopted a plan pursuant to Rule 12b–1 under the Act. Each Met Series Fund series Class B shares has adopted a Rule 12b-1 distribution plan whereby up to .50% of a Fund's assets attributable to the Class B shares may be used to finance the distribution of the Fund's shares. Currently, the 12b-1 fees for the Class B shares of each Met Series Fund series

are .25%.

35. MetLife is the principal underwriter for Met Series Fund.
MetLife Advisers, LLC, an affiliate of MetLife, serves as the investment adviser to each portfolio of Met Series Fund. Pursuant to the Multi-Manager Order, MetLife Advisers, LLC is authorized to enter into and amend subadvisory agreements without shareholder approval under certain conditions.

36. The following Replacement Funds are portfolios of Met Series Fund: T. Rowe Price Small Cap Growth Portfolio (sub-advised by T. Rowe Price); MFS Total Return Portfolio (sub-advised by MFS); State Street Research Money Market Portfolio (sub-advised by State Street Research and Management Company); T. Rowe Price Large Cap Growth Portfolio (sub-advised by T. Rowe Price); Salomon Brothers Strategic Bond Opportunities Portfolio (sub-advised by Salomon Brothers Asset Management Inc.); and State Street

Research Bond Income (sub-advised by State Street Research & Management Company).

37. The annuity contracts are group and individual flexible premium fixed and variable deferred and immediate annuity contracts. Many of the annuity contracts provide that a maximum of 12 transfers can be made every year without charge or that a \$10 contractual limit charge will apply or that no transfer charge will apply. During the accumulation period, Contract owners may transfer between the variable account options or from the variable account options to the fixed account option. Some of the Contracts have no contractual limitation on transfers during the accumulation period. Some Contract owners may make transfers from the fixed account option subject to certain minimum transfer amounts (\$500 or the total interest in the account) and maximum limitations. Some of the Contracts impose Contract withdrawal charges upon the transfer of any amounts from the fixed account to the variable account or have additional restrictions on transfers from the fixed account to the variable account. During the income period or under the immediate annuity, Contract owners may currently make unlimited transfers among investment portfolios and from investment portfolios to the fixed account option. No fees or other charges are currently imposed on transfers for most of the Contracts. Under certain annuity contracts, the Insurance Companies reserve the right to impose additional restrictions on transfers. All transfer limits will be suspended in connection with the substitutions.

38. Under the life insurance policies, policy owners may allocate account value among the General Account and the available investment portfolios. All or part of the account value may be transferred from any investment portfolio to another investment portfolio, or to the General Account. The minimum amount that can be transferred is the lesser of the minimum transfer amount (which currently ranges from \$1 to \$500), or the total value that is an investment portfolio or the General Account. Certain policies provide that twelve transfers in a policy year can be made without charge. A transfer fee of \$25 is payable for additional transfers in a policy year, but these fees are not currently charged. Other policies do not currently limit the number of transfers; however, the Insurance Companies reserve the right to limit transfers to four or twelve (depending on the policy) per policy year and to impose a \$25 charge on transfers in excess of 12 per year or on any transfer. Under the policies, the

Insurance Companies reserve the right to impose additional restrictions on transfers. All transfer limits will be suspended in connection with the substitutions.

39. Under most of the Contracts, the Insurance Companies reserve the right to substitute shares of one fund with shares of another, including a fund of a different registered investment company. Certain variable annuity contracts issued by MetLife Investors USA provide, however, that the Insurance Company cannot substitute investment options without the approval of a majority in interest of owners of Contracts who have allocated funds to the investment option to be replaced. The substitutions affected by this requirement are Separate Account A's investments in: AIM V.I. Balanced Fund, AIM V.I. Premier Equity Fund, Alger American Small Capitalization Portfolio, Federated American Leaders Fund II, Federated Equity Income Fund II, Federated High Income Bond Fund II, Federated Growth Strategy Fund II, VIP Asset Manager Portfolio, MFS Research Series, Oppenheimer Strategic Bond Fund/VA, Oppenheimer Main Street Fund/VA, Oppenheimer Bond Fund/ VA, Oppenheimer Money Fund/VA, Oppenheimer Main Street Small Cap Growth Fund/VA and Growth and Income Portfolio. The Substitution Applicants represent that they will seek the requisite approval of Contract owners (as described below).

40. Each Insurance Company, on its behalf and on behalf of the Separate Accounts, proposes to make certain substitutions of shares of the Existing Funds held in sub-accounts of its respective Separate Accounts for shares of the Replacement Funds. The proposed substitutions involve only Class A shares (or their equivalent), unless otherwise indicated. The proposed substitutions are as follows:

(a) Shares of MFS Total Return Portfolio for shares of AIM V.I. Balanced Fund; (b) shares of MFS Total Return Portfolio for shares of VIP Asset Manager Portfolio; (c) shares of Lord Abbett Growth and Income Portfolio for shares of AIM V.I. 42. The substitutions are expected to provide significant benefits to Contract owners, including improved selection of portfolio managers and simplification of fund offerings through the elimination of overlapping offerings. The Substitution Applicants believe that the sub-advisers to the Replacement Funds overall are better positioned to provide consistent above-average performance for their Funds than are the advisers or sub-advisers of the Existing Funds. At the same time, Contract owners will continue to be able to select among a large number of funds, with a full range of investment objectives, investment strategies, and managers.

43. In addition, many of the Existing Funds are smaller than their respective Replacement Funds. Specifically, in all but two of the proposed substitutions, the Replacement Fund has a greater asset base than the Existing Fund. Moreover, a substantial number of Existing Funds are no longer available as investment options under Contracts previously or currently offered by the Insurance Companies, or, if available, are available only for additional contributions and/or transfers from other investment options under Contracts not currently offered. Thus, there is little likelihood that significant additional assets, if any, will be allocated to those Existing Funds. (More detailed information regarding the amount of each Fund's assets can be found in the Application.)

44. Because the Replacement Funds generally have a larger asset base than their corresponding Existing Funds, various costs such as legal, accounting, printing and trustee fees are spread over a larger base with each Contract owner bearing a smaller portion of the cost than would be the case if the Fund were smaller in size. In addition, there will be significant savings to Contract owners because certain other costs, such as the costs of printing and mailing lengthy periodic reports and prospectuses for the Existing Funds, will be substantially reduced.

45. The Applicants believe that the Replacement Funds have investment objectives, policies, and risk profiles that are the same as, or sufficiently similar to, the corresponding Existing Funds to make those Replacement Funds appropriate candidates as substitutes. Set forth below is a description of the investment objectives and principal investment policies of each Existing Fund and its corresponding Replacement Fund.

Existing fund

Replacement fund

AIM V.I. Balanced Fund—seeks to achieve as high a total return as possible, consistent with preservation of capital. The Fund normally invests a minimum of 50% and a maximum of 70% of its total assets in equity securities and a minimum of 30% and a maximum of 70% of its total assets in non-convertible debt securities. At least 65% of its assets are invested in U.S. government securities, foreign government securities, mortgage- and asset-backed securities, corporate bonds (including up to 100% of its assets in junk bonds) and emerging market securities.

Oppenheimer Bond Fund/VA—mainly seeks a high level of current income. As a secondary objective, the Fund seeks capital appreciation consistent with its primary objective. Normally, at least 80% of the Fund's total assets are invested on investment grade debt securities, U.S. governmental securities and money market investments. The Fund may invest in debt securities of any maturity and may invest up to 35% of the total assets in junk bonds.

Replacement fund

PIMCO Total Return Portfolio—seeks maximum total return, consistent with the preservation of capital and prudent investment management. The Portfolio normally invests at least 65% of its assets in a diversified portfolio of fixed income instruments of varying maturities. The Portfolio invests primarily in investment grade debt obligations, U.S. government securities and commercial paper and other short-term obligations. Up to 20% of the Portfolio's net assets may be invested in securities denominated in foreign currencies and the Portfolio may invest beyond that limit in U.S. dollar-denominated securities of foreign issuers.

State Street Research Money Market Portfolio—seeks a high level of current income, consistent with preservation of capital. The Portfolio invests in the highest quality money market obligations including commercial paper and asset-backed securities. The Portfolio may also invest in U.S. dollar-denominated securities issued by foreign companies or banks or their U.S. affiliates.

Salomon Brothers Strategic Bond Opportunities Portfolio—seeks a high level of total return consistent with preservation of capital. Under normal circumstances, at least 80% of the Portfolio's assets are invested in U.S. investment grade securities (including U.S. government obligations), U.S. and foreign (including emerging markets) high yield debt, and foreign government securities. Up to 100% of the Portfolio's assets may be invested in high yield debt securities.

State Street Research Bond Income Portfolio—seeks a competitive total return primarily from investing in fixed income securities. Under normal circumstances, the Portfolio invests at least 80% of its assets in fixed income securities including investment grade fixed income securities, obligations of the U.S. Treasury or any governmental agency, mortgage-backed and asset-backed securities, corporate debt securities of U.S. and foreign issuers, and cash equivalents. Up to 20% of the Portfolio's assets may be invested in high yield securities, up to 20% in foreign securities and up to 10% in the securities of emerging market issuers. No combination of investments in high yield securities, foreign securities or emerging market securities will exceed 30% of the Portfolio's assets.

46. The following tables compare the total operating expenses of the Existing Fund and the Replacement Fund for each proposed substitution. The comparative fund expenses are generally based on actual expenses,

including waivers, for the year ended December 31, 2002. In some cases, the expense caps for certain Replacement Funds were increased effective May 1, 2003. In such cases, the expenses of those Funds have been restated to reflect the expense cap in effect as of May 1, 2003. Where a Fund has multiple classes of shares involved in the proposed substitution, the expenses of each class are presented.

47. The share classes of the Existing Funds and the Replacement Funds are identical with respect to the imposition of Rule 12b–1 fees currently imposed. While each Replacement Fund's Class B Rule 12b–1 fees can be raised to 0.50% of net assets by the Fund's Board of Trustees/Directors, the Rule 12b–1 fees of 0.25% of the Existing Funds' shares cannot be raised by the Fund's Board of Trustees, without shareholder approval, except as follows:

AllianceBernstein Premier Growth Portfolio—Can Be Raised by Board Up to 0.50%

AllianceBernstein Value Portfolio—Can Be Raised by Board Up to 0.50%

AllianceBernstein Small Cap Value Portfolio—Can Be Raised by Board Up to 0.50%

Franklin Large Cap Growth Securities Fund—Can Be Raised by Board Up to 0.35%

Franklin Small Cap Fund—Can Be Raised by Board Up to 0.35%

Mutual Shares Securities Fund—Can Be Raised by Board Up to 0.35%

Putnam VT New Value Fund—Can Be Raised by Board Up to 0.35%

Putnam VT International New Opportunities Fund—Can Be Raised by Board Up to 0.35%

Met Series Fund and MIST represent that, except as set forth in the following sentence, Rule 12b-1 fees for the Replacement Funds' Class B shares issued in connection with the proposed substitutions will not be raised above 0.25% of net assets without the approval of a majority in interest of those Contract owners whose shares were involved in the proposed substitutions. The foregoing representation shall apply to the following substitutions only if the Rule 12b–1 fees for the Replacement Funds Class B shares exceed 0.35% or 0.50% of net assets as indicated: AllianceBernstein Premier Growth Portfolio/Janus Aggressive Growth Portfolio—0.50%; AllianceBernstein Value Portfolio/Lord Abbett Growth and Income Portfolio—0.50%: AllianceBernstein Small Cap Value Portfolio/Third Avenue Small Cap Value Portfolio—0.50%; Franklin Large Cap Growth Securities Fund/T. International New Opportunities Fund/MFS Research International Portfolio—0.35%.

48. Further, in addition to any Rule 12b–1 fees, the investment advisers or distributors of the Existing Funds pay the Insurance Companies or one of the affiliates from 5 to 30 basis points for Class A shares (or their equivalent) sold to the Separate Accounts and, for Class B shares (or their equivalent), Rule 12b-1 fees of 25 basis points plus additional amounts ranging from 5 to 25 basis points. Following the substitutions, these payments will not be made on behalf of the Existing Funds. Rather, only 25 basis points in Rule 12b–1 fees (with respect to Class B shares) and profit distributions to members, if any, from the Replacement Funds' advisers will be available to the Insurance Companies or the Replacement Funds' distributors.

49. The Insurance Companies considered the performance history of each Fund and determined that no Contract owners would be materially adversely affected as a result of the substitutions. More detailed information regarding the Funds' comparative performance histories can be found in the Application.

50. The process for accomplishing the transfer of assets from each Existing Fund to its corresponding Replacement Fund will be determined on a case-by-case basis. In most cases, it is expected that the substitutions will be effected by redeeming shares of an Existing Fund for cash and using the cash to purchase shares of the Replacement Fund.

51. In certain other cases, it is expected that the substitutions will be effected by redeeming the shares of an Existing Fund in-kind; those assets will then be contributed in-kind to the corresponding Replacement Fund to purchase shares of that Fund. All in-kind redemptions from an Existing Fund of which any of the Substitution Applicants is an affiliated person will be effected in accordance with the conditions set forth in the Commission's no-action letter issued to *Signature Financial Group, Inc.* (available December 28, 1999).

52. The proposed substitutions will take place at relative net asset value with no change in the amount of any Contract owner's Contract value, cash value, or death benefit or in the dollar value of his or her investment in the Separate Accounts. Contract owners will not incur any fees or charges as a result of the proposed substitutions, nor will their rights or an Insurance Company's obligations under the Contracts be altered in any way. All expenses incurred in connection with the proposed substitutions, including brokerage, legal, accounting, and other fees and expenses, will be paid by the Insurance Companies. In addition, the proposed substitutions will not impose any tax liability on Contract owners. The proposed substitutions will not cause the Contract fees and charges currently being paid by existing Contract owners to be greater after the proposed substitutions than before the proposed substitutions. No fees will be charged on the transfers made at the time of the proposed substitutions because the proposed substitutions will not be treated as a transfer for the purpose of assessing transfer charges or for determining the number of remaining permissible transfers in a Contract year.

53. The Substitution Applicants agree that, to the extent that the annualized expenses of each Replacement Fund exceed, for each fiscal period (such period being less than 90 days) during the twenty-four months following the substitutions, the 2002 net expense level of the corresponding Existing Fund, the Insurance Companies will, for each Contract outstanding on the date of the proposed substitutions, make a corresponding reduction in separate

account (or sub-account) expenses on the last day of such fiscal period, such that the amount of the Replacement Fund's net expenses, together with those of the corresponding separate account (or sub-account) will, on an annualized basis, be no greater than the sum of the net expenses of the Existing Fund and the expenses of the separate account (or sub-account) for the 2002 fiscal year of the Insurance Companies, as applicable.

54. The Substitution Applicants further agree that the Insurance Companies will not increase total separate account charges (net of any reimbursements or waivers) for any existing owner of the Contracts involved in the proposed substitution on the date of the substitutions for a period of two years from the date of the substitutions.

55. By a supplement to the prospectuses for the Contracts and the Separate Accounts, each Insurance Company will notify all owners of the Contracts of its intention to take the necessary actions, including seeking the order requested by this application and to substitute shares of the funds as described herein. The supplement will advise Contract owners that from the date of the supplement until the date of the proposed substitution, owners are permitted to make one transfer of Contract value (or annuity unit exchange) out of the Existing Fund subaccount, to another sub-account without the transfer (or exchange) being treated as one of a limited number of permitted transfers (or exchanges) or a limited number of transfers (or exchanges) permitted without a transfer charge. The supplement also will inform Contract owners that the Insurance Company will not exercise any rights reserved under any Contract to impose additional restrictions on transfers until at least 30 days after the proposed substitutions, except that the Insurance Company may impose restrictions on transfers to prevent or limit "market timing" activities by Contract owners or agents of Contract owners. The supplement will further advise Contract owners that for at least 30 days following the proposed substitutions, the Insurance Companies will permit Contract owners affected by the substitutions to make one transfer of Contract value (or annuity unit exchange) out of the Replacement Fund sub-account to another sub-account without the transfer (or exchange) being treated as one of a limited number of permitted transfers (or exchanges) or a limited number of transfers (or exchanges) permitted without a transfer charge.

56. In addition, in accordance with the Contract provisions and/or

prospectus disclosure for Contracts issued by MetLife Investors USA, MetLife Investors USA will seek approval of the substitutions proposed for Separate Account A from MetLife Investors USA contract owners. Such approval will be sought from the owners of each class of MetLife Investors USA Contracts voting as a separate group, and the substitutions will be carried out for each class of Contracts whose owners approve them. A class of Contracts refers to a Contract type distinguishable from other types by the product (marketing) designation and, in most cases, by its contract form as approved for sale in each jurisdiction. Contracts of the same class have the same features and charge structure.

57. Approval is obtained by the affirmative vote of a majority of the class's outstanding interests in the Existing Fund sub-account of Separate Account A (measured by the dollar value of accumulation units or annuity unit reserves). MetLife Investors USA will solicit approval of MetLife Investors USA contract owners by sending them written voting forms accompanied by a voting information statement and other disclosure documents in a manner consistent with applicable requirements of Regulation 14A under the Securities Exchange Act of 1934. In particular, the relevant information will disclose, in substance, the information required by applicable items of Form N-14. Any beneficial financial interest that MetLife Investors USA may have in Separate Account A is immaterial in relation to the interests of contract owners, and MetLife Investors USA will not cast any votes.

58. Finally, within five business days after the proposed substitutions, Contract owners will be sent a written notice informing them that the substitutions were carried out and that they may make one transfer of all Contract value or cash value under a Contract invested in any one of the subaccounts on the date of the notice to another sub-account available under their Contract at no cost and without regard to any limits on the frequency of transfers. The notice will also reiterate that the Insurance Company will not exercise any rights reserved by it under the Contracts to impose additional restrictions on transfers or to impose any charges on transfers (other than with respect to "market timing" activities) until at least 30 days after the proposed substitutions. The Insurance Companies will also send each Contract owner current prospectuses for the Replacement Funds involved.

## Applicants' Legal Analysis

1. Section 26(c) of the Act requires the depositor of a registered unit investment trust holding the securities of a single issuer to obtain Commission approval before substituting the securities held by the trust. Specifically, Section 26(c) states:

It shall be unlawful for any depositor or trustee of a registered unit investment trust holding the security of a single issuer to substitute another security for such security unless the commission shall have approved such substitution. The Commission shall issue an order approving such substitution if the evidence establishes that it is consistent with the protection of investors and the purposes fairly intended by the policy and provision of this title.

- 2. The Substitution Applicants state that the proposed substitutions appear to involve substitutions of securities within the meaning of Section 26(c) of the Act. The Substitution Applicants, therefore, request an order from the Commission pursuant to Section 26(c) approving the proposed substitutions.
- 3. Some of the Contracts expressly reserve to the applicable Insurance Company the right, subject to compliance with applicable law, to substitute shares of another investment company for shares of an investment company held by a sub-account of the Separate Accounts. The prospectuses for these Contracts and the Separate Accounts contain appropriate disclosure of this right. Certain Contracts issued by MetLife Investors USA provide, however, that approval of a majority of Contract owners who have allocated premiums to a particular Separate Account must be obtained prior to any substitution.
- 4. Applicants request an order of the Commission pursuant to Section 26(c) of the Act approving the proposed substitutions by the Insurance Companies. The Applicants assert that the proposed substitutions are consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.
- 5. The Substitution Applicants represent that the proposed Replacement Fund for each Existing Fund has an investment objective that is at least substantially similar to that of the Existing Fund. Moreover, the principal investment policies of the Replacement Funds are similar to those of the corresponding Existing Funds. The Insurance Companies believe that the new sub-adviser will, over the long-term, be positioned to provide at least comparable performance to that of the Existing Fund's sub-adviser.

- 6. In addition, a substantial number of the Existing Funds are currently either not available as investment options under any Contract previously or currently offered by the Insurance Companies or, if available, are available only for additional contributions and/or transfers from other investment options under Contracts not currently offered. The Substitution Applicants submit that, with respect to those Existing Funds with limited or no current availability, there is little likelihood additional significant assets, if any, will be allocated to such Funds, and, therefore, because of the costs of maintaining such Funds as investment options under the Contracts, it is in the interest of shareholders to substitute the applicable Replacement Funds which are currently being offered as investment options by the Insurance Companies.
- 7. The Substitution Applicants anticipate that Contract owners will be better off with the array of sub-accounts offered after the proposed substitutions than they have been with the array of sub-accounts offered prior to the substitutions. The proposed substitutions retain for Contract owners the investment flexibility that is a central feature of the Contracts. If the proposed substitutions are carried out, all Contract owners will be permitted to allocate purchase payments and transfer Contract values and cash values between and among approximately the same number of sub-accounts as they could before the proposed substitutions. Moreover, the elimination of the costs of printing and mailing prospectuses and periodic reports of the Existing Funds will benefit Contract owners.
- 8. The Substitution Applicants assert that none of the proposed substitutions is of the type that Section 26(c) was designed to prevent. Unlike traditional unit investment trusts where a depositor could only substitute an investment security in a manner which permanently affected all the investors in the trust, the Contracts provide each Contract owner with the right to exercise his or her own judgment and transfer Contract or cash values into other sub-accounts. Moreover, the Contracts will offer Contract owners the opportunity to transfer amounts out of the affected sub-accounts into any of the remaining sub-accounts without cost or other disadvantage. The proposed substitutions, therefore, will not result in the type of costly forced redemption that Section 26(c) was designed to
- 9. The Substitution Applicants assert that the proposed substitutions also are unlike the type of substitution that

Section 26(c) was designed to prevent in that by purchasing a Contract, Contract owners select much more than a particular investment company in which to invest their account values. They also select the specific type of insurance coverage offered by an Insurance Company under their Contract as well as numerous other rights and privileges set forth in the Contract. Contract owners may also have considered each Insurance Company's size, financial condition, relationship with MetLife, and its reputation for service in selecting their Contract. These factors will not change as a result of the proposed substitutions.

10. Section 17(a)(1) of the Act, in relevant part, prohibits any affiliated person of a registered investment company, or any affiliated person of such person, acting as principal, from knowingly selling any security or other property to that company. Section 17(a)(2) of the Act generally prohibits the persons described above, acting as principals, from knowingly purchasing any security or other property from the registered company.

11. Section 2(a)(3) of the Act defines the term "affiliated person of another person" in relevant part as:

(A) Any person directly or indirectly owning, controlling, or holding with power to vote, 5 per centum or more of the outstanding voting securities of such person; (B) any person 5 per centum or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such person; (C) any person directly or indirectly controlling, controlled by, or under common control with, such other person; \* \* \* (E) if such other person is an investment company, any investment adviser thereof \* \* \*

Section 2(a)(9) of the Act states that any person who owns beneficially, either directly or through one or more controlled companies, more than 25% of the voting securities of a company shall be presumed to control such company.

12. Because shares held by a separate account of an insurance company are legally owned by the insurance company, the Insurance Companies and their affiliates collectively own of record substantially all of the shares of MIST and Met Series Fund. Therefore, MIST and Met Series Fund and their respective funds are arguably under the control of the Insurance Companies notwithstanding the fact that Contract owners may be considered the beneficial owners of those shares held in the Separate Accounts. If MIST and Met Series Fund and their respective funds are under the control of the Insurance Companies, then each

Insurance Company is an affiliated person or an affiliated person of an affiliated person of MIST and Met Series Fund and their respective funds. If MIST and Met Series Fund and their respective funds are under the control of the Insurance Companies, then MIST and Met Series Fund and their respective funds are affiliated persons of the Insurance Companies.

13. Regardless of whether or not the Insurance Companies can be considered to control MIST and Met Series Fund and their respective funds, because the Insurance Companies own of record more than 5% of the shares of each of them and are under common control with each Replacement Fund's investment adviser, the Insurance Companies are affiliated persons of both MIST and Met Series Fund and their respective funds. Likewise, their respective funds are each an affiliated person of the Insurance Companies. In addition, the Insurance Companies, through their separate accounts own more than 5% of the outstanding shares of certain Existing Funds.

14. Because the substitutions may be effected, in whole or in part, by means of in-kind redemptions and purchases, the substitutions may be deemed to involve one or more purchases or sales of securities or property between affiliated persons. The proposed transactions may involve a transfer of portfolio securities by the Existing Funds to the Insurance Companies; immediately thereafter, the Insurance Companies would purchase shares of the Replacement Funds with the portfolio securities received from the Existing Funds. Accordingly, as the Insurance Companies and the Replacement Funds could be viewed as affiliated persons of one another under Section 2(a)(3) of the Act, it is conceivable that this aspect of the substitutions could be viewed as being prohibited by Section 17(a). Accordingly, the Section 17 Applicants have determined that it is prudent to seek relief from Section 17(a) in the context of this Application for the inkind purchases and sales of the Replacement Fund shares.

15. Section 17(b) of the Act provides that the Commission may, upon application, grant an order exempting any transaction from the prohibitions of Section 17(a) if the evidence establishes that: (1) The terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; (2) the proposed transaction is consistent with the policy of each registered investment company

concerned, as recited in its registration statement and records filed under the Act; and (3) the proposed transaction is consistent with the general purposes of the Act.

16. The Section 17 Applicants submit that the terms of the proposed in-kind purchase transactions, including the consideration to be paid and received by each fund involved, are reasonable, fair and do not involve overreaching principally because the transactions will conform with all but two of the conditions enumerated in Rule 17a-7. The proposed transactions will take place at relative net asset value in conformity with the requirements of Section 22(c) of the Act and Rule 22c-1 thereunder with no change in the amount of any Contract owner's contract value or death benefit or in the dollar value of his or her investment in any of the Separate Accounts. Contract owners will not suffer any adverse tax consequences as a result of the substitutions. The fees and charges under the Contracts will not increase because of the substitutions. Even though the Separate Accounts, the Insurance Companies, MIST and Met Series Fund may not rely on Rule 17a– 7, the Section 17 Applicants submit that the Rule's conditions outline the type of safeguards that result in transactions that are fair and reasonable to registered investment company participants and preclude overreaching in connection with an investment company by its

affiliated persons. 17. The boards of MIST and Met Series Fund have adopted procedures, as required by paragraph (e)(1) of Rule 17a-7, pursuant to which the series of each may purchase and sell securities to and from their affiliates. The Section 17 Applicants will carry out the proposed Insurance Company in-kind purchases in conformity with all of the conditions of Rule 17a-7 and each series' procedures thereunder, except that: (1) The consideration paid for the securities being purchased or sold may not be entirely cash, and (2) the boards of MIST and Met Series Fund will not separately review each portfolio security purchased by the Replacement Funds. Nevertheless, the circumstances surrounding the proposed substitutions will be such as to offer the same degree of protection to each Replacement Fund from overreaching that Rule 17a-7 provides to them generally in connection with their purchase and sale of securities under that Rule in the ordinary course of their business. In particular, the Insurance Companies (or any of their affiliates) cannot effect the proposed transactions at a price that is disadvantageous to any of the

Replacement Funds. Although the transactions may not be entirely for cash, each will be effected based upon (1) the independent market price of the portfolio securities valued as specified in paragraph (b) of Rule 17a-7, and (2) the net asset value per share of each fund involved valued in accordance with the procedures disclosed in its respective Investment Company's registration statement and as required by Rule 22c-1 under the Act. No brokerage commission, fee, or other remuneration will be paid to any party in connection with the proposed transactions.

18. The Section 17 Applicants submit that the sale of shares of the Replacement Funds for investment securities, as contemplated by the proposed Insurance Company in-kind purchases, is consistent with the investment policy and restrictions of the Investment Companies and the Replacement Funds because (1) the shares are sold at their net asset value, and (2) the portfolio securities are of the type and quality that the Replacement Funds would each have acquired with the proceeds from share sales had the shares been sold for cash. To assure that the second of these conditions is met, Met Investors Advisory LLC, MetLife Advisers, LLC and the sub-adviser, as applicable, will examine the portfolio securities being offered to each Replacement Fund and accept only those securities as consideration for shares that it would have acquired for each such fund in a cash transaction.

19. The Section 17 Applicants submit that the proposed Insurance Company in-kind purchases, as described herein, are consistent with the general purposes of the Act as stated in the Findings and Declaration of Policy in Section 1 of the Act. The proposed transactions do not present any of the conditions or abuses that the Act was designed to prevent. The Section 17 Applicants submit that the abuses described in Sections 1(b)(2) and (3) of the Act will not occur in connection with the proposed in-kind transactions.

## Conclusion

Applicants assert that for the reasons summarized above the proposed substitutions and related transactions meet the standards of Section 26(c) of the Act and are consistent with the standards of Section 17(b) of the Act and that the requested orders should be granted.

For the Commission, by the Division of Investment Management pursuant to delegated authority.
