

three years. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while the submission is pending at OMB.

Abstract: FIFRA allows the EPA to classify a pesticide as "restricted use" if the pesticide meets certain toxicity or risk criteria. Restricted use pesticides, because of their potential to harm human health or the environment, may be applied only by a certified applicator or by a person under the direct supervision of a certified applicator. A person must meet certain standards of competency to become a certified applicator. States can be delegated the certified applicator program, but it must be approved by the Agency before it can be implemented. In non-participating entities, EPA administers the certification program.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information that is subject to approval under the PRA, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's information collections appear on the collection instruments or instructions, in the **Federal Register** notices for related rulemakings and ICR notices, and, if the collection is contained in a regulation, in a table of OMB approval numbers in 40 CFR part 9.

Burden Statement: The annual "respondent" burden for this ICR is estimated to be 4,412 hours. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection, it is the time reading the regulations, planning the necessary data collection activities, conducting tests, analyzing data, generating reports and completing other required paperwork, and storing, filing, and maintaining the data. The agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection appear at the beginning and the end of this document. In addition OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

Respondents/affected entities: You may be affected by this action if you run an EPA approved certified pesticide applicator program for restricted use pesticides or are a certified pesticide

applicator using restricted use pesticides that must comply with requirements of Section 11 of the Federal Insecticide, Fungicide, and Rodenticide Act and 40 CFR part 171.

Estimated total number of potential respondents: 424,398.

Frequency of response: As needed or annually, depending on the category of respondent.

Estimated total/average number of responses for each respondent: 1-3.

Estimated total annual burden hours: 1,311,368.

Estimated total annual costs: \$25,108,623.

Changes in the ICR since the last approval:

The estimated paperwork burden has increased slightly from 1,285,865 to 1,311,368 hours due to an expected increase in the number of certified commercial applicators participating in the EPA-administered program. EPA will begin administering a private applicator program in the Navajo Indian Country within the next 3 years, thus increasing the number of applicators subject to the information collection activities. The cost burden has risen as well, primarily as a result of inflation from \$21,456,058 to \$25,108,623.

Bureau Begins Audit of Operational Status of Licenses in the Paging and Radiotelephone Service and 929-930 MHz Band Exclusive Private Carrier Paging Channels

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document the Wireless Telecommunications Bureau (Bureau) announces it has mailed audit letters to licensees of all site-specific licenses operating under part 22, Paging and Radiotelephone Service with "CD" radio service code and all site-specific licenses operating in the 929-930 MHz band on exclusive private carrier paging channels with "GS" radio service. Licensees must respond to the audit letter, electronically, by November 12, 2004.

ADDRESSES: Federal Communications Commission 445 12th Street, SW., TW-A325, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Denise D. Walter, Mobility Division, at 202-418-0620.

SUPPLEMENTARY INFORMATION: This is a summary of the Federal Communications Commission's *Public Notice*, DA 04-3050, released on September 29, 2004. The full text of this document is available for inspection and copying during normal business hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Federal Communications Commission's copy contractor, Best Copy and Printing, Inc, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at <http://wireless.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at bmillin@fcc.gov.

1. On September 28, 2004, the Federal Communications Commission's (Commission) Wireless Telecommunications Bureau (Bureau) began its license audit of the operational status all site-specific licenses authorized in the Paging and Radiotelephone Service, part 22, subpart E, and site-specific licenses authorized on private carrier paging *exclusive* channels in the 929-930 MHz band, part 90, subpart P.

2. Every licensee holding authorizations in the above radio services must respond and certify, by November 12, 2004, that its authorized station(s) has not permanently discontinued operations from the date of initial constriction and operation pursuant to 47 CFR 22.317.

3. Audit letters were mailed to the licensees at their address of record. If a licensee received more than one audit letter, they must respond to each letter sent by the Commission in order to account for all of its call signs that are part of the audit. Licensees can use the *Audit Search* at <http://wireless.fcc.gov/licensing/audits/paging> to determine if a particular call sign is part of the audit. If the Audit Search shows a letter was mailed, the licensee is required to respond to the audit even though the audit letter was not received. For instructions on how to proceed in this instance, licensees should call the Commission at 717-338-2888 or 888-CALLFCC (888-225-5322) and select option 2.

4. The process for responding to the audit was included in the audit letter. A response is mandatory and must be submitted electronically by November 12, 2004. Failure to provide a timely response may result in the Commission presuming that the station(s) has permanently discontinued operations as described under 47 CFR 22.317, and thus the license may be presumed to have automatically cancelled. Failure to provide a timely response may also result in an enforcement action, including monetary forfeiture, pursuant to section 503(b)(1)(B) of the Communications Act and 47 CFR 1.80(a)(2).
