SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49931; File No. SR-ISE-2004-24]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Change by the International Securities Exchange, Inc. Relating to the Interaction of Market Maker Quotations

June 28, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 21, 2004, the International Securities Exchange, Inc. ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in

Items I and II below, which Items have been prepared by the Exchange. This order approves the proposal on an accelerated basis and publishes notice of the proposed rule change to solicit comments from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to codify in its rules a one-second "timer" that it employs before the quotations of ISE market makers interact. Below is the text of the proposed rule change. Proposed new language is *italicized*; proposed deletions are in [brackets].

Rule 804. Market Maker Quotations

* * * * *

(d) Firm Quotes. (1) Market maker bids and offers are firm for orders and Exchange market maker quotations both under this Rule and Rule 11Ac1-1 under the Exchange Act ("Rule 11Ac1-1") for the number of contracts specified according to the requirements of paragraph (b) above. Market maker bids and offers are not firm under this Rule and Rule 11Ac1-1 if:

(i) a system malfunction or other circumstance impairs the Exchange's ability to disseminate or update market quotes in a timely and accurate manner;

(ii) the level of trading activities or the existence of unusual market conditions is such that the Exchange is incapable of collecting, processing, and making available to quotation vendors the data for the option in a manner that accurately reflects the current state of the market on the Exchange, and as a result, the market in the option is declared to be "fast" pursuant to Rule 704;

(iii) during trading rotations; or

(iv) any of the circumstances provided in paragraph (c)(3) of Rule 11Ac1-1 exist.

(2) *Notwithstanding Paragraph (1) above, if a market maker's bid (offer) can trade with the offer (bid) of another market maker, no execution shall occur between such quotations for a period of no more than one second. During this period, the System will update quotations that may be received; provided however, that during this period all quotations shall otherwise remain firm and the System will automatically execute all incoming orders against such quotations.*

(3) [(2)] Within thirty seconds of receipt of an order to buy or sell an option in an amount greater than the Order Execution Size, or within thirty seconds of another Exchange market maker entering a quotation at a price

executable against the market maker's quotation, that portion of the order equal to the Order Execution Size, or the Quotation Execution Size, as the case may be, will be executed and the bid or offer price will be revised.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The ISE proposes to codify in its rules a one-second "timer" that it employs before the quotations of ISE market makers interact. The ISE treats orders and quotations differently, with ISE Rule 804(a) stating that only market makers may enter quotations on the ISE. Market makers use quotations to input and update prices on multiple series of options at the same time. Quotations generally are based on pricing models that rely on various factors, including the price and volatility of the underlying security. As these variables change, a market maker's pricing model automatically updates quotations for some or all of an option's series. In contrast, an order is an interest to buy a stated number of contracts of one specific options series. All ISE members, including ISE market makers, can enter orders.³

When stock prices change, ISE market makers update quotations in multiple series at the same time. The ISE represents that it promptly processes such quotation changes when it receives them. However, there is invariably a lag between the time the stock price first changes and the time by which the ISE can process all the corresponding option quotation changes. During this short period, the ISE may update one market maker's bid price to be the same as

³ ISE Rule 717 imposes various limitations on orders that Electronic Access Members may enter on the ISE, while ISE Rule 805 governs market maker orders.
