II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Phlx included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it had received on the proposed rule change. The text of these statements may be examined at the

places specified in Item IV below. The Phlx has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to eliminate the requirement that the Phlx members that participate in the Linkage Plan be firm for incoming Principal and Principal Acting as Agent ("P/A") Orders for a size of at least 10 contracts where the Exchange's disseminated size is less than 10 contracts. The proposed rule change would allow Phlx members that participate in the Linkage Plan to execute inbound Principal and P/A Orders at their actual disseminated size as opposed to a minimum quote size.⁴

The proposed rule change represents another step towards the execution of all order types at the Exchange's disseminated price up to its actual disseminated size, rather than the execution of orders at the Exchange's disseminated price up to an artificially designated size. The Commission has approved several Exchange rule amendments that require Phlx responsible brokers or dealers to be firm for their actual disseminated size,⁵ as well as amendments providing automatic executions at the Exchange's disseminated size, rather than a pre-set "AUTO-X guarantee."⁶

The purpose of the instant proposed rule change is to eliminate the artificial 10 contract minimum contained in the definition of "FCQS" and "FPQS" in the Exchange's rules. Specifically, the proposed rule change would allow Phlx members that participate in the Linkage Plan to execute inbound P/A and Principal Orders at the actual size of the disseminated quote.⁷ Currently,

⁴ At the request of the Exchange, this paragraph has been modified to make clear that the proposed rule change applies exclusively to Phlx members. Telephone conversation between Richard S. Rudolph, Director and Counsel, Phlx, and Tim Fox, Attorney, Division of Market Regulation ("Division"), Commission, on September 7, 2004.

⁵ See Securities Exchange Act Release No. 47646 (April 8, 2003), 68 FR 27610 (May 20, 2003) (SR-Phlx-2003-18).

⁶ See Securities Exchange Act Release No. 46886 (November 22, 2002), 67 FR 72015 (December 3, 2002) (SR-Phlx-2002-39).

⁷ At the Exchange's request, this sentence was modified to make clear that the proposed rule change would permit the execution of Principal and P/A Orders at the actual disseminated size as opposed to the size of the order. Telephone conversation between Richard S. Rudolph, Director

Exchange Rules 1083(g) and (h) impose the obligation on the Phlx specialist to execute an order at a minimum guaranteed size of 10 contracts despite the fact that the actual disseminated size may be less than 10 contracts.⁸ The proposed rule change would permit the Phlx to execute inbound Linkage orders at the Exchange's actual disseminated size. The proposed rule change would eliminate the artificial minimum guaranteed size of 10 contracts, and would therefore require Phlx specialists to be firm at the Exchange's disseminated price for their actual disseminated size.

The Exchange believes that executions of Principal and P/A Orders at the Exchange's actual disseminated size should enhance the ability of participants of the Linkage Plan that send Principal and P/A Orders to the Exchange to ascertain the actual number of contracts available at the Exchange's disseminated price, thus resulting in more transparency in the marketplace.

2. Statutory Basis

The Phlx believes that the proposed rule is consistent with Section 6(b) of the Act,⁹ in general, and furthers the objectives of Section 6(b)(5)¹⁰ in particular in that it is designed to perfect the mechanisms of a free and open market and the national market system, protect investors and the public interest and promote just and equitable principles of trade, by permitting Exchange specialists to provide executions for Linkage Orders at the Exchange's actual disseminated size.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

and Counsel, Phlx, and Tim Fox, Attorney, Division, Commission, on September 7, 2004.

⁸ Currently, for example, if the Exchange's disseminated size is for 3 contracts and the Phlx receives an inbound eligible P/A or Principal Order with a size of 10 contracts, then Rule 1083 requires that the specialist must execute 10 contracts despite the fact that the Exchange's disseminated size is only 3 contracts.

⁹ 15 U.S.C. 78f(b).

¹⁰ 15 U.S.C. 78f(b)(5).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the Phlx consents, the Commission will:

(A) By order approve such proposed rule change, as amended; or

(B) Institute proceedings to determine whether the proposed rule change, as amended, should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
