

11 records to its Wage and Information Returns (IRP) Master File (Treas/IRS 22.061). The IRS also refers to this file as the Information Return Master File (IRMF).

HUD will place matching data into its system of records known as the Tenant Eligibility Verification Files (HUD/REAC-1). The HUD/REAC-1 records are specifically exempt from certain provisions of the Privacy Act, as described in notices published on February 28, 1994 (59 FR 9406) and March 30, 1994 (59 FR 14869).

HUD may also coordinate SWICAs income computer matches for its rental assistance programs using tenants' SSNs and surnames. SWICAs will match tenant records to machine-readable files of quarterly wage data and unemployment insurance benefit data. Results from this matching will be provided to HUD or HAs, which will then determine whether tenants have unreported or underreported income. The matching will be done in accordance with a written agreement between the SWICAs and HUD.

In addition, tenants SSNs may be matched to the OPM's General Personnel Records (OPM/GOVT-1) and the Civil Service Retirement and Insurance Records System (OPM/Central-1). Tenant data may be matched to the SSA's Master Files of Social Security Number Holders (HHS/SSA/OSR, 09-60-0058) and Death Master Files for the purpose of validating SSNs contained in tenant records. These records will also be used to validate SSNs for all applicants, tenants, and household members who are six (6) years of age and over to identify noncompliance with program eligibility requirements. HUD will compare tenant SSNs provided by POAs to reveal duplicate SSNs and potential duplicate housing assistance.

V. Period of the Match

The computer matching program will be conducted according to agreements between HUD and the SSA, IRS, OPM, and SWICA. The computer matching agreements for the planned matches will terminate either when the purpose of the computer matching program is accomplished, or 18 months from the date the agreement is signed, whichever comes first.

The agreements may be extended for one 12-month period, with the mutual agreement of all involved parties, if the following conditions are met:

(1) Within 3 months of the expiration date, all Data Integrity Boards review the agreement, find that the program will be conducted without change, and

find a continued favorable examination of benefit/cost results; and

(2) All parties certify that the program has been conducted in compliance with the agreement.

The agreement may be terminated, prior to accomplishment of the computer matching purpose or 18 months from the date the agreement is signed (whichever comes first), by the mutual agreement of all involved parties within 30 days of written notice.

Dated: March 1, 2004.

General Deputy Technology Officer.

SUPPLEMENTARY INFORMATION: On

December 10, 2003, the State of Alaska filed an application for a recordable disclaimer of interest for lands underlying the Porcupine River. The State asserts the river is navigable, and under the Equal Footing Doctrine and Submerged Lands Act of 1953, ownership of the submerged lands automatically passed from the United States to the State at the time of statehood in 1959. The State's evidence of navigability of the Porcupine River includes: a letter dated May 13, 1974, from the BLM Alaska State Director, an administrative navigability determination made by the BLM dated April 21, 1983, and a reference to the Washington Treaty signed on May 8, 1871, by the United States and Great Britain. The treaty guaranteed the use of certain navigable rivers crossing the International Boundary between Alaska and Canada, and pursuant to Article XXVI of the treaty, navigation rights "for the purposes of commerce" on the Porcupine River were permanently established.

The application is for the bed of the Porcupine River and all interconnecting sloughs between the ordinary high water marks on its banks from the Alaska/Canada International Border in sections 22 and 27, T. 30 N., R. 30 E., Fairbanks Meridian (FM), Alaska, downstream about 225 miles to its confluence with the Yukon River within T. 20 N., R. 10 E. and T. 20 N., R. 11 E., FM.

The State did not identify any known adverse claimant or occupant of the affected lands.

Dated: January 30, 2004.

Mike Haskins,

Chief, Branch of Lands and Realty.
