

information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the Department is currently developing indicators and measures that will yield information on various aspects of the quality of the Research and Innovation to Improve Services and Results for Children with Disabilities program. Included in these indicators and measures will be those that assess the quality and relevance of newly funded research projects. Two indicators will address the quality of new projects. First, an external panel of eminent senior scientists will review the quality of a randomly selected sample of newly funded research applications, and the percentage of new projects that are deemed to be of high quality will be determined. Second, because much of the Department's work focuses on questions of effectiveness, newly funded applications will be evaluated to identify those that address causal questions and then to determine what percentage of those projects use randomized field trials to answer the causal questions. To evaluate the relevance of newly funded research projects, a panel of experienced education practitioners and administrators will review descriptions of a randomly selected sample of newly funded projects and rate the degree to which the projects are relevant to practice.

Other indicators and measures are still under development in areas such as the quality of project products and long-term impact. Data on these measures will be collected from the projects funded under this notice. Grantees will also be required to report information on their projects' performance in annual reports to the Department (EDGAR, 34 CFR 75.590).

FGT states that the referenced tariff sheets are being filed in compliance with the Commission's Order on Rehearing, Clarification, Compliance Filing and Technical Conference, issued April 20, 2004, in which the Commission directed FGT to file tariff revisions to provide for partial reservation charge credits only in force majeure situations and, in instances of full reservation charge credits, that reservation fixed cost surcharges shall be included.

Florida Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff

May 26, 2004.

Take notice that on May 19, 2004, Florida Gas Transmission Company (FGT) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets, effective June 1, 2004:

Sixty-Third Revised Sheet No. 8A
Fifty-Fifth Revised Sheet No. 8A.01
Fifty-Fifth Revised Sheet No. 8A.02
Fifteenth Revised Sheet No. 8A.04
Fifty-Eighth Revised Sheet No. 8B
Fifty-First Revised Sheet No. 8B.01
Eighth Revised Sheet No. 8B.02

FGT states that in Docket No. RP04-185-000 filed on February 27, 2004, FGT filed to establish a Base Fuel Reimbursement Charge Percentage (Base FRCP) of 3.14% to become effective for the six-month Summer Period beginning April 1, 2004. FGT further states that on March 19, 2004, in Docket No. RP04-222-000, FGT filed a flex adjustment of (0.39%) to be effective April 1, 2004, which, when combined with the Base FRCP of 3.14% resulted in an Effective FRCP of 2.75%. The Federal Energy Regulatory Commission (FERC) approved these filings on March 26, 2004, and April 14, 2004, respectively.

FGT states that in the instant filing, FGT is filing a flex adjustment of 0.25% resulting in a cumulative flex adjustment of (0.14%) to be effective June 1, 2004, which, when combined with the Base FRCP of 3.14% results in an Effective FRCP of 3.00%. FGT states that this filing is necessary because FGT is currently experiencing higher fuel usage than will be recovered by the currently Effective FRCP of 2.75%. Increasing the FRCP will reduce FGT's underrecovery of fuel and reduce the Unit Fuel Surcharge in the next Summer Period.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's rules and regulations.
