BILLING CODE 9110-11-P

DEPARTMENT OF THE INTERIOR

Central Utah Project Completion Act

AGENCIES: Department of the Interior, Office of the Assistant Secretary—Water and Science, (Interior); Utah Reclamation Mitigation and Conservation Commission, (Mitigation Commission); Central Utah Water Conservancy District, (CUWCD).

ACTION: Notice of availability of the Utah Lake Drainage Basin Water Delivery System, Draft Environmental Impact Statement authorized in Section 202(a)(1) of the Central Utah Project Completion Act (CUPCA), which is part of the Bonneville Unit of the Central Utah Project.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, Interior, CUWCD, and the Mitigation Commission (joint lead agencies), have issued a Draft Environmental Impact Statement (DEIS) for the Utah Lake Drainage Basin Water Delivery System (Utah Lake System), Bonneville Unit, Central Utah Project. The DEIS addresses potential impacts related to construction and operation of the features proposed for the Utah Lake System. The DEIS is intended to satisfy disclosure requirements of the National Environmental Policy Act (NEPA) and will serve as the NEPA compliance document for contracts, agreements and permits that would be required for construction and operation of the Utah

Lake System. The DEIS is intended to provide NEPA compliance for the Clean Water Act Section 404(r) exemption process. In addition to this notification, notices will be published in local newspapers. The purpose of these publications is to give notice to all interested parties of the availability of the Utah Lake System DEIS and provide an opportunity for the public to submit written comments.

DATES: Written comments on the DEIS must be submitted or postmarked no later than June 11, 2004. Electronic comments will not be accepted. Comments on the DEIS may also be presented verbally or submitted in writing at public hearings that will be held on: April 28, 2004, at 5 p.m. at the Sandy City Hall, located at 10,000 South Centennial Parkway, Sandy, Utah; and April 29, 2004, at 5 p.m. at the Veterans Memorial Building in Spanish Fork, located at 386 North Main Street, Spanish Fork, Utah. Verbal comments at the hearings will be limited to 5 minutes. Those wishing to give verbal comments should submit a registration form, included at the end of the DEIS, to the address listed below one week prior to the public hearings. In order to be included as part of the hearing record, written comments must be submitted at the time of the hearing.

ADDRESSES: Comments on the DEIS should be addressed to Mr. Mark Breitenbach, Central Utah Water Conservancy District, 355 West University Parkway, Orem, Utah, 84058.

FOR FURTHER INFORMATION CONTACT:

Additional information on matters related to this notice can be obtained from Mr. Reed Murray at (801) 379-1237, or he can be reached over the Internet at rmurray@uc.usbr.gov.

Additional copies of the DEIS, and copies of the resource technical reports can be obtained from Ms. Laurie Barnett, Central Utah Water Conservancy District, 355 West University Parkway, Orem, Utah, 84058.

Copies are also available for inspection at:

Central Utah Water Conservancy District, 355 West University Parkway, Orem, Utah 84058.

Utah Reclamation Mitigation and Conservation Commission, 102 West 500 South, Suite 315, Salt Lake City UT 84101.

Department of the Interior, Natural Resource Library, Serials Branch, 18th C Streets, NW., Washington, DC 20240.

Department of the Interior, Central Utah Project Completion Act Office, 302 East 1860 South, Provo, Utah 84606. and on the Central Utah Water

Conservancy District Web site at: <http://www.cuwcd.com/cupca/projects/uls/index.htm>.

SUPPLEMENTARY INFORMATION:

Background—The Utah Lake System is one of the systems of the Bonneville Unit of the Central Utah Project that would develop central Utah's water resources for municipal and industrial supply, fish and wildlife, and recreation. Initiation of planning for the Utah Lake System was announced in the **Federal Register** on October 14, 1998, (FR Doc. 98-27484). Notice of intent to initiate scoping and prepare a DEIS was announced in the **Federal Register** on August 23, 2000, (FR Doc. 00-21458). Scoping was accomplished in two stages: informal scoping was conducted through public meetings in September 2000 and October 2001; and formal scoping was conducted through mailings and public meetings during February 2002. Comments received through the scoping process were considered during preparation of the DEIS.

Preferred Alternative—The Utah Lake System Preferred Alternative would provide an average transbasin diversion of 101,900 acre-feet which consists of 30,000 acre-feet of Municipal and Industrial (M&I) secondary water to southern Utah County and 30,000 acre-feet of M&I water to Salt Lake County water treatment plants; 1,590 acre-feet of M&I water already contracted to southern Utah County cities, and 40,310 acre-feet of M&I water to Utah Lake for exchange to Jordanelle Reservoir. It would conserve water in a Mapleton-Springville Lateral Pipeline, conserve water in the Provo River basin and deliver it along with acquired water to assist June sucker spawning and rearing, convey water to support in-stream flows in Provo River and in Hobbie Creek to assist recovery of the June sucker, and develop hydropower. This alternative would involve construction of five new pipelines for delivery of water and 2 new hydropower plants and associated transmission lines. Under this alternative, Interior would acquire up to 57,003 acre-feet of the District's secondary water rights in Utah Lake to provide a firm annual yield of 60,000 acre-feet of M&I water.

Bonneville Unit Water Alternative—The Bonneville Unit Water Alternative would have an average transbasin diversion of 101,900 acre-feet consisting of: 1,590 acre-feet of M&I water already contracted to the southern Utah County cities; 15,800 acre-feet of M&I water to southern Utah County to be used in secondary water systems; and 84,510 acre-feet of M&I water delivered to Utah

Lake for exchange to Jordanelle Reservoir. It would conserve water in a Mapleton-Springville Lateral Pipeline, conserve water in the Provo River basin and deliver it along with acquired water to assist June sucker spawning and rearing, convey water to support in-stream flows in Hobble Creek to assist recovery of the June sucker, and develop hydropower. It would involve construction of three new pipelines and two new hydropower plants with associated transmission lines. Under this alternative, Interior would acquire up to 15,000 acre-feet of the District's secondary water rights in Utah Lake to provide a firm annual yield of 15,800 acre-feet of M&I water.

No Action Alternative—No new water conveyance features would be constructed under the No Action Alternative. The delivery of 86,100 acre-feet of Bonneville Unit M&I exchange water would be made without any shortages. Some of the Bonneville Unit M&I exchange water would be routed through the Strawberry Tunnel to meet in-stream flow needs in Sixth Water and Diamond Fork creeks. The remaining Bonneville Unit M&I exchange water would be conveyed through the Diamond Fork System and discharged into Diamond Fork Creek at the outlet near Monks Hollow or discharged from the Diamond Fork Pipeline into the Spanish Fork River at the mouth of Diamond Fork Canyon. The irrigation diversions on lower Spanish Fork River would be modified to bypass and measure the 86,100 acre-feet into Utah Lake, and to allow fish passage as previously agreed by the Interior and District in the 1999 Diamond Fork FS-FEIS and ROD. The Interior would not purchase any of the District's secondary water rights in Utah Lake and no water would be conveyed to Hobble Creek. The No Action Alternative would be the same as the Interim Proposed Action in the Diamond Fork FS-FEIS.

Dated: March 25, 2004.

Ronald Johnston,

Program Director, Department of the Interior.

Michael C. Weland,

Executive Director, Utah Reclamation Mitigation and Conservation Commission.

BILLING CODE 4310-RK-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of a Draft Study Design for the Hudson River Natural Resource Damage Assessment

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI), as a natural resource trustee, announces the release for public review of the Draft Study Design for spring 2004 avian investigations. The Draft Study Design describes the activities that constitute the Trustees' currently proposed approach to conducting investigations of avian species, particularly belted kingfisher and spotted sandpiper, beginning in spring 2004, as part of the Hudson River Natural Resource Damage Assessment (NRDA).

DATES: Written comments must be submitted on or before April 29, 2004.

ADDRESSES: Requests for copies of the Draft Study Design may be made to: Ms. Kathryn Jahn, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Written comments or materials regarding the Draft Study Design should be sent to the same address.

FOR FURTHER INFORMATION CONTACT:

Kathryn Jahn, Environmental Contaminants Branch, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Interested parties may also call 607-753-9334 for further information.

SUPPLEMENTARY INFORMATION: The Draft Study Design is being released for public review and comment in accordance with the Trustees' NRDA Plan for the Hudson River issued in September 2002. That NRDA Plan was released in accordance with the NRDA Regulations found at title 43 of the Code of Federal Regulations part 11.

Interested members of the public are invited to review and comment on the Draft Study Design. Copies of the Draft Study Design are available from the Service's New York Field Office at 3817 Luker Road, Cortland, New York 13045. All comments received on the Draft Study Design will be considered and a response provided either through revision of the Study Design and incorporation into the Final Study Design or by letter to the commentator.

Comments, including names and home addresses of respondents, will be available for public review during regular business hours. Individual

respondents may request confidentiality. If you wish us to withhold your name and or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. We will not, however, consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Author: The primary author of this notice is Ms. Kathryn Jahn, New York Field Office, U.S. Fish and Wildlife Service, 3817 Luker Road, Cortland, New York 13045.

Authority: The authority for this action is the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C.

Dated: March 24, 2004.

Thomas J. Healy,

Acting Regional Director, Region 5, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-660-04-2822]

Notice of Emergency Temporary Closure of Public Lands to Motorized Vehicles and Certain Other Uses in San Diego County, CA, Under Burned Area Emergency Stabilization and Restoration

AGENCY: Bureau of Land Management, Interior.

ACTION: Emergency temporary closure to motorized and mechanized vehicle use and certain other uses on public lands administered by the Bureau of Land Management (BLM), Palm Springs-South Coast Field Office, California.

SUMMARY: The BLM Palm Springs-South Coast Field Office is temporarily closing portions of public lands to motorized and mechanized vehicle use, and prohibiting or restricting certain other uses, in the South Coast Resource Area in San Diego County, California. This closure is needed to protect public health and safety, cultural and natural resources, and stabilization treatments as recommended in the Department of the Interior's Burned Area Emergency Stabilization and Rehabilitation (BAER)
