Notice of Meeting of the Pinedale Anticline Working Group's Air Quality Task Group

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (1976) and the Federal Advisory Committee Act (1972), the U.S. Department of the Interior, Bureau of Land Management (BLM) Pinedale Anticline Working Group (PAWG) Air Quality Task Group (subcommittee) will meet in Pinedale, Wyoming, for a business meeting. Task Group meetings are open to the public.

DATES: The PAWG Air Quality Task Group will meet November 30, 2004, from 10 a.m. until 5 p.m.

ADDRESSES: The meeting of the PAWG Air Quality Task Group will be held in the conference room of the BLM Pinedale Field Office at 432 E. Mill St., Pinedale, WY.

FOR FURTHER INFORMATION CONTACT: Susan Caplan, BLM/Air Quality TG Liaison, Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Rd., Cheyenne, WY 82009, or PO Box 1828, Cheyenne, WY 82003; 307-775-6031.

SUPPLEMENTARY INFORMATION: The Pinedale Anticline Working Group (PAWG) was authorized and established with release of the Record of Decision (ROD) for the Pinedale Anticline Oil and Gas Exploration and Development Project on July 27, 2000. The PAWG advises the BLM on the development and implementation of monitoring plans and adaptive management decisions as development of the Pinedale Anticline Natural Gas Field (PAPA) proceeds for the life of the field.

After the ROD was issued, Interior determined that a Federal Advisory

Committees Act (FACA) charter was required for this group. The charter was signed by Secretary of the Interior, Gale Norton, on August 15, 2002, and renewed on August 13, 2004. An announcement of committee initiation and call for nominations was published in the **Federal Register** on February 21, 2003 (68 FR 8522). PAWG members were appointed by Secretary Norton on May 4, 2004.

At their second business meeting, the PAWG established seven resource- or activity-specific Task Groups, including one for Air Quality. Public participation on the Task Groups was solicited through the media, letters, and word-of-mouth.

The agenda for this meeting will include information gathering and discussion related to developing an air quality monitoring plan to assess the impacts of development in the Pinedale Anticline gas field, and identifying who will do and who will pay for the monitoring. Task Group recommendations are due to the PAWG in February, 2005. At a minimum, public comments will be heard just prior to adjournment of the meeting.

Dated: November 8, 2004.

Abstract: The Secretary of the U.S. Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands. The Secretary is required by various laws to manage mineral resources production on Federal and Indian lands, collect the royalties due, and distribute the funds in accordance with those laws. The MMS performs the royalty management functions for the Secretary.

Applicable citations of the laws are Public Law 97-451—Jan. 12, 1983 (Federal Oil and Gas Royalty Management Act of 1982) and Public Law 212—Aug. 7, 1953 (Outer Continental Shelf Lands Act of 1953, as amended by Public Law 93-627—Jan. 3, 1975; Public Law 95-372—Sept. 18, 1978; and Public Law 98-498—Oct. 19, 1984). These citations can be viewed on our Web site at http://www.mrm.mms.gov/Laws_R_D/PublicLawsAMR.htm.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share of the value received from production from the leased lands. The lease creates a business relationship between the lessor and the lessee. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is similar to data reported to private and public mineral interest owners and is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals. The information collected includes data necessary to ensure royalties or net profit share payments are properly valued and appropriately paid. Proprietary information submitted to MMS under this collection is protected,

and no items of a sensitive nature are collected.

Net Profit Share Lease Bidding System

To encourage exploration and development of oil and gas leases on submerged Federal lands on the Outer Continental Shelf, regulations were promulgated at 30 CFR 260, Outer Continental Shelf Oil and Gas Leasing. Specific implementation regulations for the net profit share lease (NPSL) bidding system are promulgated at 30 CFR 260.110(d) (covered under ICR 1010-0143, expires December 31, 2006). The MMS established the NPSL bidding system to properly balance a fair market return to the Federal Government for the lease of its lands, with a fair profit to companies risking their investment capital. The system provides an incentive for early and expeditious exploration and development and provides for sharing the risks by the lessee and the Federal Government. The NPSL bidding system incorporates a fixed capital recovery system as a means through which the lessee recovers costs of exploration and development from production revenues, along with a reasonable return on investment.

The Federal Government does not receive a profit share payment from an NPSL until the lessee shows a credit balance in its capital account; that is, cumulative revenues and other credits exceed cumulative costs. The credit balance is multiplied by the net profit share rate (30 to 50 percent), resulting in the amount of net profit share payment due the Federal Government.

The MMS requires lessees to maintain an NPSL capital account for each lease, which transfers to a new owner when sold. Following the cessation of production, lessees are also required to provide either an annual or a monthly report to the Federal Government, using data from the capital account. In addition, NPSL lessees must notify MMS of their intent to perform an inventory and file a report after each inventory of controllable material. Further, when non-operators of an NPSL call for an audit, they must notify MMS. When MMS calls for an audit, the lessee must notify all non-operators on the lease. These requirements are located at 30 CFR Part 220, §§ 220.010, 220.030, 220.031, 220.032, and 220.033. This collection of information is necessary in order to determine when net profit share payments are due and to determine the proper amount of payment.

We are revising this ICR to add citations related to records management (30 CFR 220.030(a)) and inventories (30 CFR 220.032(b)). We added a new citation for a PRA-exempt requirement
