1. Apple Jacks Coal Company, Inc.

[Docket No. M-2004-043-C]

Apple Jacks Coal Company, Inc., Box 584, North Tazewell, Virginia 24630 has filed a petition to modify the application of 30 CFR 75.1710-1 (Canopies and cabs; self-propelled diesel-powered and electric face equipment; installation requirements) to its Mine No. 3 (MSHA I.D. No. 44-06939) located in Dickenson County, Virginia. The petitioner proposes to operate self-propelled electric face equipment without canopies in seam heights of 48 inches or less. The petitioner asserts that application of the existing standard at the Mine No. 3 will result in a diminution of safety to the miners.

2. Maple Creek Mining, Inc.

[Docket No. M-2004-044-C]

Maple Creek Mining, Inc., 981 Route 917, Bentleyville, Pennsylvania 15314 has filed a petition to modify the application of 30 CFR 75.507 (Power connection points) to its High Quality Mine (MSHA I.D. No. 36-08375) located in Washington County, Pennsylvania. The petitioner proposes to use low and medium volt, three phase, alternating current, non-permissible, submersible pump(s) in return and bleeder entries and sealed areas, conditioned upon the specific terms and conditions listed in this petition for modification. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard; pumps will be limited to low or medium voltages; and the pump motor will be maintained under water at all times to isolate it from the mine atmosphere.

3. Consolidation Coal Company

[Docket No. M-2004-045-C]

The petitioner states that the checkpoints will be maintained in safe condition at all times; tests for methane and the quantity of air at each checkpoint will be determined weekly by a certified person; and the certified person will place his/her initials and date in a record book that will be kept on the surface and made available for inspection by interested persons. The certified person will also place his/her initials, and date on a date board at the checkpoint sites. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.
