

We estimate the following costs to accomplish any necessary replacements that would be required based on the

results of this proposed inspection. We have no way of determining the number

of sailplanes that may need this replacement:

Labor cost	Parts cost	Total cost per airplane
1 workhour × \$65 per hour = \$65	\$10	\$65 + 10 = \$75

Would This Proposed AD Impact Various Entities?

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

Would This Proposed AD Involve a Significant Rule or Regulatory Action?

For the reasons discussed above, I certify that this proposed AD:

1. Is not a “significant regulatory action” under Executive Order 12866;
2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a summary of the costs to comply with this proposed AD and placed it in the AD Docket. You may get a copy of this summary by sending a request to us at the address listed under **ADDRESSES**. Include “AD Docket No. 2003–CE–63–AD” in your request.

SUPPLEMENTARY INFORMATION:

Background

Because of disagreements over the meaning of gas "gathering line" in 49 CFR part 192, RSPA/OPS has twice proposed to redefine the term. The first proposal was withdrawn (43 FR 42773; September, 1978), and the second (56 FR 48505; September 25, 1991) remains open. In reaction to unfavorable comments on these proposals, RSPA/OPS delayed final action pending the collection and consideration of further information on the gas "gathering line" issue. In contrast, RSPA/OPS has had little difficulty applying the definition of petroleum "gathering line" in 49 CFR part 195.

Following the second proposal to define gas "gathering line," Congress directed DOT to define "gathering line" for both gas and hazardous liquid pipelines, and, "if appropriate," define as "regulated gathering line" those rural gathering lines that, because of specific physical characteristics, should be regulated (49 U.S.C. 60101(b)). In furtherance of the open rulemaking proposal and the congressional directives, RSPA/OPS held an internet discussion that focused on a definition offered by the Gas Processors Association (GPA) (Docket No. RSPA-98-4868; 64 FR 12147; March 11, 1999).

However, follow-up action stalled because RSPA/OPS and its associated state pipeline safety agencies were concerned that physical pipeline features referenced in the GPA definition were changeable. As a stopgap, while deliberating on a suitable alternative to the 1991 proposal, RSPA/OPS published an advisory bulletin reminding pipeline operators that we would continue to define gas gathering
