

2. Civil Penalty Assessment

d. Exercise of Discretion

As provided in Section VII, "Exercise of Discretion," discretion may be exercised by either escalating or mitigating the amount of the civil penalty determined after applying the civil penalty adjustment factors to ensure that the proposed civil penalty reflects all relevant circumstances of the particular case. However, in no instance will a civil penalty for any one violation exceed \$130,000 per day.

VII. Exercise of Discretion*A. Escalation of Enforcement Sanctions*

The NRC considers violations categorized at Severity Level I, II, or III to be of significant regulatory concern. The NRC also considers violations associated with findings that the Reactor Oversight Process's Significance Determination Process evaluates as having low to moderate, or greater safety significance (*i.e.*, white, yellow, or red) to be of significant regulatory concern. If the application of the normal guidance in this policy does not result in an appropriate sanction, with the approval of the Deputy Executive Director and consultation with the EDO and Commission, as warranted, the NRC may apply its full enforcement authority where the action is warranted. NRC action may include: (1) escalating civil penalties; (2) issuing appropriate orders; and (3) assessing civil penalties for continuing violations on a per day basis, up to the statutory limit of \$130,000 per violation, per day.

3. Daily Civil Penalties

In order to recognize the added significance for those cases where a very strong message is warranted for a significant violation that continues for more than one day, the NRC may exercise discretion and assess a separate violation and attendant civil penalty up to the statutory limit of \$130,000 for each day the violation continues. The NRC may exercise this discretion if a licensee was aware of or clearly should have been aware of a violation, or if the licensee had an opportunity to identify and correct the violation but failed to do so.
