DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0572]

Agency Information Collection Activities Under OMB Review

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-21), this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, has submitted the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden and includes the actual data collection instrument.

DATES: Comments must be submitted on or before April 22, 2004.

FOR FURTHER INFORMATION OR A COPY OF THE SUBMISSION CONTACT: Denise McLamb, Records Management Service

(005E3), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 273-8030, FAX (202) 273-5981 or e-mail: denise.mclamb@mail.va.gov. Please refer to "OMB Control No. 2900-0572."

Send comments and recommendations concerning any aspect of the information collection to VA's OMB Desk Officer, OMB Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503 (202) 395-7316. Please refer to "OMB Control No. 2900-0572" in any correspondence.

SUPPLEMENTARY INFORMATION:

Title: Application for Benefits for Certain Children with Disabilities Born of Vietnam and Certain Korea Service Veterans, VA Form 21-0304.

Type of Review: Extension of a currently approved collection.

Abstract: 38 U.S.C 1815, Children of Women Vietnam Veterans Born with Certain Birth Defects, authorizes payment of monetary benefits to, or on behalf of, certain children of female veterans who served in Republic of Vietnam. To be eligible, the child must be the biological child; conceived after the date the veteran first served in Vietnam during the period February 28, 1961, to May 7, 1975; and have certain birth defects resulting in permanent physical or mental disability.

38 U.S.C. 1805, Spina Bifida Benefits Eligibility, authorizes payment to a spina bifida child-claimant to parent(s) who performed active military, naval, or air service during the Vietnam era during the period January 9, 1962, to May 7, 1975. The child must be the natural child of a Vietnam veteran, regardless of age or marital status, who was conceived after the date on which the veteran first entered the Republic of Vietnam during the Vietnam era. Spina Bifida benefits are payable for all types of spina bifida except spina bifida occulta. The law does not allow payment of both benefits at the same time. If entitlement exists under both laws, benefits will be paid under 38 U.S.C. 1815. VA Form 21-0304 is used to gather the necessary information to determine eligibility for a monetary allowance and appropriate level of payment.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on December 10, 2003, at pages 68971-68972.

Affected Public: Individuals or households.
Estimated Annual Burden: 72 hours.
Estimated Average Burden Per Respondent: 10 minutes.
Frequency of Response: On occasion.
Estimated Number of Respondents: 430.

By direction of the Secretary.

Dated: March 11, 2004.

Loise Russell,

Director, Records Management Service.

SUPPLEMENTARY INFORMATION:

Title: Agent Orange Registry Code Sheet, VA Form 10-9009.

OMB Control Number: 2900-0376.

Type of Review: Extension of a currently approved collection.

Abstract: VA in an on-going effort to maintain an Agent Orange Registry (AOR) developed a reporting format to facilitate the collection of information obtained from veterans during the Agent Orange registry examination process. VA is required to organize and update the information contained in AOR to enable VA to notify Vietnam era veterans who served in the Republic of Vietnam of any increased health risks resulting from exposure to dioxin or other toxic agents. VA may also provide, upon request, a health examination, consultation, and counseling to a veteran who is eligible for listing or inclusion in any health-related registry administered by VA that are similar to the Persian Gulf War Veterans Health Registry. Registry examinations are provided to veterans who served in Korea in 1968 or 1969, and/or any U.S. veteran who may have been exposed to dioxin, or other toxic substances in a herbicide or defoliant, during the conduct of, or as a result of, the testing, transporting, or spraying of herbicides, and who requests an Agent Orange Registry examination. The information obtained from the veteran during the interview is entered on VA Form 10-9009, Agent Orange Registry Code Sheet. The registry will provide a mechanism to catalogue prominent symptoms, reproductive health, and diagnoses and to communicate with Agent Orange veterans. VA informs the veterans on research findings or new compensation policies through periodic newsletters. The registry is not designed or intended to be a research tool and therefore the results cannot be generalized to represent all Agent Orange veterans.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on November 7, 2003, at page 63193.

Affected Public: Individuals or households.

Estimated Total Annual Burden: 12,000 hours.

Estimated Average Burden Per Respondent: 20 minutes.

Frequency of Response: On occasion.

Estimated Number of Respondents: 36,000.

By direction of the Secretary.

Dated: March 11, 2004.

Jacqueline Parks,

IT Specialist, Records Management Service.

SUPPLEMENTARY INFORMATION:

Title: National Vietnam Veterans Longitudinal Study, VA Form 10-21064.

Type of Review: New collection.
Abstract: The National Vietnam Veterans Longitudinal Study (NVVLS) is a follow-up to the National Vietnam Veterans Readjustment Study (NVVRS) conducted in 1986 through 1987 to sample veterans who served in the U.S. Army, Navy, Air Force, or Marines between August 5, 1964, and May 7, 1975. The NVVRS found that 15.2 percent of the men and 8.5 percent of the women who had served in Vietnam were current cases of posttraumatic stress disorder (PTSD). The rates of PTSD for those veterans exposed to high levels of war-zone stress were dramatically higher than the rates for those with low/moderate levels of war-zone stress exposure. Because of the
