

4, Health Certificate-Export Certificate-Animal Products, is used to meet these requirements. Regulations pertaining to export certification of animals and animal products are contained in 9 CFR parts 91 and 156.

Need and Use of the Information: Form VS 16-4 serves as the official certification that the United States is free of rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, bovine fever, bovine spongiform encephalopathy, and contagious bovine pleuropneumonia. APHIS will collect the about the exporter, type of product exported, and type of conveyance (ship, train, truck) that will transport the products. Without the information, many countries would not accept animal products from the United States, creating a serious trade imbalance and adversely affecting U.S. exporters.

Description of Respondents: Individuals or households; Business or other-for-profit; Federal Government.
Number of Respondents: 30,000.
Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 60,000.

Forest Service

Title: Interpretive Services at Ancient Bristlecone Pine Forest in the Inyo National Forest.

OMB Control Number: 0596-NEW.
Summary of Collection: Pub. L. 95-307 directs the Secretary of Agriculture to research the multiple uses and products, including recreation of forest and rangeland so as to facilitate their most effective use. As part of Forest Service's (FS) continuing research effort to develop and try alternative approaches for evaluating recreational services on public lands, this information collection will focus entirely on visitors to the Ancient Bristlecone Pine Forest in the Inyo National Forest of California, which is an important tourist destination. The information collected will help forest managers better understand how and why visitors use the interpretive opportunities provided and ways to improve service delivery. FS researchers will use three methods to collect information: (1) On-site observation of site use, (2) an interview, or (3) a self-administered written questionnaire.

Need and Use of the Information: FS will collect information about the following: (1) Visitors' use of interpretation and resource information services, (2) basic visitors' demographic characteristics, (3) visitors' motive, needs, and expectations for the visit, (4) visitors' motives, needs, and preferences for interpretive services, (5) the overall

effectiveness of interpretive services, (6) how visitors obtain information about the Ancient Bristlecone Pine Forest and what types of information they desire or prefer, (7) ways to develop effective new or different educational programs, and (8) satisfaction levels. Results will be provided to resource managers in the areas studied, as well as to managers across the United States, to enable more effective management of these lands.

Description of Respondents: Individual or households.
Number of Respondents: 1,000.
Frequency of Responses: Reporting: On occasion.
Total Burden Hours: 333.

Food Safety and Inspection Service

Title: Advanced Meat Recovery Systems.

OMB Control Number: 0583-0130.
Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged. FSIS requires that official establishments that produce meat from Advanced Meat Recovery (AMR) systems assess the age of cattle product used in the system, document their testing protocols and procedures for handling product in a manner that does not cause the product to be misbranded or adulterated, and maintain records of their documentation and test results.

Need and Use of the Information: FSIS will collect information from establishments to ensure that the meat product produced by the use of AMR systems is free from Bovine Spongiform Encephalopathy.

Description of Respondents: Business or other for-profit.
Number of Respondents: 56.
Frequency of Responses: Recordkeeping; Reporting: Other (Daily).
Total Burden Hours: 25,256.

Rural Business Service

Title: 7 CFR 4284-G, Rural Business Opportunity Grants.

OMB Control Number: 0570-0024.
Summary of Collection: The Rural Business Opportunity Grant (RBOG) program was authorized by section 741 of the Federal Agriculture Improvement and Reform Act of 1996, Public Law 104-127. 7 CFR 4284-G provides the detailed program regulations and

requirements for reporting and application procedures for grant recipients. The objective of the RBOG program is to promote sustainable economic development in rural areas. This purpose is achieved through grants made by the Rural Business Cooperative Service (RBS) to public and private non-profit organizations and cooperatives to pay costs of economic development planning and technical assistance for rural businesses.

Need and Use of the Information: The information collected is from grant applicants and recipients. Grantees should keep complete and accurate accounting records as evidence that the grant funds were used properly. The information is necessary for RBS to process applications in a responsible manner, make prudent program decisions, and effectively monitor the grantees' activities to ensure that funds obtained from the Government are used appropriately.

Description of Respondents: Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 210.
Frequency of Responses: Recordkeeping; Reporting: On occasion; Quarterly; Monthly.
Total Burden Hours: 16,275.
