ACTION: Notice of public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on June 17, 2004, in Rockville, Maryland. The purpose of ISCORS is to foster early resolution and coordination of regulatory issues associated with radiation standards. Agencies represented as members of ISCORS include the following: NRC; U.S. Environmental Protection Agency; U.S. Department of Energy; U.S. Department of Defense; U.S. Department of Transportation; the Occupational Safety and Health Administration of the U.S. Department of Labor; and the U.S. Department of Health and Human Services. ISCORS meeting observer agencies include the Office of Science and Technology Policy, Office of Management and Budget, Defense Nuclear Facilities Safety Board, as well as representatives from both the States of Illinois and Pennsylvania. ISCORS maintains several objectives: (1) Facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) promote completeness and coherence of Federal standards for radiation protection; and (4) identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. One of the four ISCORS meetings each year is open to all interested members of the public.

There will be time on the agenda for members of the public to provide comments. Summaries of previous ISCORS meetings are available at the ISCORS Web site, www.iscors.org. The final agenda for the June 2004 meeting will be posted on the web site shortly before the meeting.

Joshua B. Bolten,

Director.

Memorandum for the Heads of Executive Departments and Agencies

From: Joshua B. Bolten, Director.

Subject: Update of Annual Federal Pay Raise Assumptions and Certain Inflation Factors Used in OMB Circular A-76, Performance of Commercial Activities.

This memorandum updates the annual federal pay raise assumptions and inflation factors used for computing the government's in-house personnel and non-pay costs in public-private competitions conducted pursuant to Office of Management and Budget (OMB) Circular A-76. These annual pay raise assumptions and inflation factors are based on the President's Budget for Fiscal Year 2005.

The non-pay inflation factors are for purposes of Circular A-76 competitions only. They reflect the generic non-pay inflation assumptions used to develop the fiscal year 2005 budget baseline estimates required by law. The law requires that a specific inflation factor (GDP FY/FY chained price index) be used for this purpose. These inflation factors should not be viewed as estimates of expected inflation rates for major long-term procurement items or as an estimate of inflation for any particular agency's non-pay purchases mix.

FEDERAL PAY RAISE ASSUMPTIONS*

Effective date	Civilian (percent)	Military (percent)
January 2004	4.1	4.15
January 2005	1.5	3.5

*Pay raise assumptions have not been established for pay raises subsequent to January 2005. For January 2006 and beyond, the projected percentage change in the Employment Cost Index (ECI), 4 percent, should be used to estimate in-house personnel costs for A-76 competitions. In future updates to A-76 guidance, as pay policy for years subsequent to 2005 is established, these pay raise assumptions will be revised.

NON-PAY CATEGORIES (SUPPLIES AND EQUIPMENT, ETC.)

	(percent)
FY 2004	1.3
FY 2005	1.3
FY 2006	1.5
FY 2007	1.7
FY 2008	1.9
FY 2009	*2.0

* Any subsequent years included in the period of performance and cost comparison shall continue to use the 2.0% figure, until otherwise revised by OMB.

The pay rates (including geographic pay differentials) that are in effect for 2004 shall be included for the development of in-house personnel costs. The pay raise factors provided for 2005 and beyond shall be applied to all employees, with no assumption being made as to how they will be distributed between possible locality and base pay increases.

SUPPLEMENTARY INFORMATION:

Variable-Rate Premiums

Section 4006(a)(3)(E)(iii)(II) of the Employee Retirement Income Security Act of 1974 (ERISA) and § 4006.4(b)(1) of the PBGC's regulation on Premium Rates (29 CFR part 4006) prescribe use of an assumed interest rate (the "required interest rate") in determining a single-employer plan's variable-rate premium. Pursuant to the Pension Funding Equity Act of 2004, for premium payment years beginning in 2004 or 2005, the required interest rate is the "applicable percentage" (currently 85 percent) of the annual rate of interest determined by the Secretary of the Treasury on amounts invested conservatively in long-term investment grade corporate bonds for the month preceding the beginning of the plan year for which premiums are being paid. Thus, the required interest rate to be used in determining variable-rate premiums for premium payment years beginning in May 2004 is 4.98 percent (*i.e.*, 85 percent of the 5.86 percent composite corporate bond rate for April 2004 as determined by the Treasury).

The following table lists the required interest rates to be used in determining variable-rate premiums for premium payment years beginning between June 2003 and May 2004. Note that the required interest rates for premium payment years beginning in June through December 2003 were determined under the Job Creation and Worker Assistance Act of 2002, and that the required interest rates for premium payment years beginning in January through May 2004 were determined under the Pension Funding Equity Act of 2004.

For premium payment years beginning in:	The required interest rate is:
June 2003*	4.53
July 2003*	4.37
August 2003*	4.93
September 2003*	5.31
October 2003*	5.14
November 2003*	5.16
December 2003*	5.12
January 2004**	4.94
February 2004**	4.83
March 2004**	4.79
April 2004**	4.62
May 2004**	4.98

* The required interest rates for premium payment years beginning in June through December 2003 were determined under the Job Creation and Worker Assistance Act of 2002.

** The required interest rates for premium payment years beginning in January through May 2004 were determined under the Pension Funding Equity Act of 2004.

Multiemployer Plan Valuations Following Mass Withdrawal

The PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal (29 CFR part 4281) prescribes the use of interest assumptions under the PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044). The interest assumptions applicable to valuation dates in June 2004 under part 4044 are contained in an amendment to part 4044 published elsewhere in today's **Federal Register**. Tables showing the assumptions applicable to prior periods are codified in appendix B to 29 CFR part 4044.

Issued in Washington, DC, on this 11th day of May 2004.
