Notice of Public Meeting of the Interagency Steering Committee on Radiation Standards

AGENCIES: U.S. Nuclear Regulatory Commission and U.S. Environmental Protection Agency.

ACTION: Notice of public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on June 17, 2004, in Rockville, Maryland. The purpose of ISCORS is to foster early resolution and coordination of regulatory issues associated with radiation standards. Agencies represented as members of ISCORS include the following: NRC; U.S. Environmental Protection Agency; U.S. Department of Energy; U.S. Department of Defense; U.S. Department of Transportation; the Occupational Safety and Health Administration of the U.S. Department of Labor; and the U.S. Department of Health and Human Services. ISCORS meeting observer agencies include the Office of Science and Technology Policy, Office of Management and Budget, Defense Nuclear Facilities Safety Board, as well as representatives from both the States of Illinois and Pennsylvania. ISCORS maintains several objectives: (1) Facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) promote completeness and coherence of Federal standards for radiation protection; and (4) identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. One of the four ISCORS meetings each year is open to all interested members of the public.

There will be time on the agenda for members of the public to provide comments. Summaries of previous ISCORS meetings are available at the ISCORS Web site, www.iscors.org. The final agenda for the June 2004 meeting will be posted on the web site shortly before the meeting.

Memorandum for the Heads of Executive Departments and Agencies

From: Joshua B. Bolten, Director.

Subject: Update of Annual Federal Pay Raise Assumptions and Certain Inflation Factors Used in OMB Circular A-76, Performance of Commercial Activities.

This memorandum updates the annual federal pay raise assumptions and inflation factors used for computing the government's in-house personnel and non-pay costs in public-private competitions conducted pursuant to Office of Management and Budget (OMB) Circular A-76. These annual pay raise assumptions and inflation factors are based on the President's Budget for Fiscal Year 2005.

The non-pay inflation factors are for purposes of Circular A-76 competitions only. They reflect the generic non-pay inflation assumptions used to develop the fiscal year 2005 budget baseline estimates required by law. The law requires that a specific inflation factor (GDP FY/FY chained price index) be used for this purpose. These inflation factors should not be viewed as estimates of expected inflation rates for major long-term procurement items or as an estimate of inflation for any particular agency's non-pay purchases mix.

FEDERAL PAY RAISE ASSUMPTIONS*

Effective date	Civilian (percent)	Military (percent)
January 2004	4.1	4.15
January 2005	1.5	3.5

*Pay raise assumptions have not been established for pay raises subsequent to January 2005. For January 2006 and beyond, the projected percentage change in the Employment Cost Index (ECI), 4 percent, should be used to estimate in-house personnel costs for A-76 competitions. In future updates to A-76 guidance, as pay policy for years subsequent to 2005 is established, these pay raise assumptions will be revised.
