

that altered the previous payphone compensation rules. The new rules place the liability to compensate payphone service providers (PSPs) for payphone-originated calls on the facilities-based long distance carriers from whose switches such calls are completed. The new rules were not put in effect immediately to allow industry time to prepare for implementation of the new rules. Accordingly, the Order initially adopted interim rules until the new rules become effective. The interim rules received OMB approval as of 11/14/2003 and are currently in effect. The Commission has now received OMB approval of the final rules. The interim rules will be vacated and the new rules will go into effect on July 1, 2004.
