Background and Purpose

Hostile entities continue to operate with the intent to harm U.S. National Security by attacking or sabotaging national security assets. The President has continued the national emergencies he declared following the September 11, 2001 terrorist attacks. 67 FR 58317 ((Sept. 13, 2002) (continuing national emergency with respect to terrorist attacks)); 67 FR 59447 ((Sept. 20, 2002) continuing national emergency with respect to persons who commit, threaten to commit or support terrorism)); 68 FR 55189 ((Sept. 22, 2003 (continuing national emergency with respect to persons who commit, threaten to commit or support terrorism)).

The President also has found pursuant to law, including the Magnuson Act (50 U.S.C. 191 *et seq.*), that the security of the United States is and continues to be endangered following the attacks (E.O. 13,273, 67 FR 56215 (Sept. 3, 2002) (security endangered by disturbances in international relations of U.S. and such disturbances continue to endanger such relations). Moreover, the ongoing hostilities in Afghanistan and Iraq make it prudent for U.S. ports and waterways to be on a higher state of alert because the al Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

The Coast Guard, through this proposed rule, intends to assist the Department of Defense and protect vital national security assets, in waters of Puget Sound. This proposed rule would establish security zones and notification requirements that will exclude persons and vessels from these zones during military cargo loading and unloading operations. Entry into these zones will be prohibited unless authorized by the Captain of the Port or his designee. The Captain of the Port may be assisted by other federal, state, or local agencies.

Discussion of Proposed Rule

During the past 6 months, the Captain of the Port has issued four temporary final rules establishing security zones in Commencement Bay, Washington. (CGD13-04-024 issued April 29, 2004; 69 FR 24513, May 4, 2004, item 13-04-006; 69 FR 4237, 4239, January 29, 2004; items 13-03-037 and 13-03-039)

These temporary final rules have been established to protect facilities used by
