

700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR Part 71 as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, is proposed to be amended as follows:

SUPPLEMENTARY INFORMATION: OSHA published a proposed standard for Longshoring and Marine Terminals;

Vertical Tandem Lifts, in the **Federal Register** on September 16, 2003 (68 FR 54297). On December 10, 2003 (68 FR 68804), OSHA published a notice providing an additional sixty (60) days for the submission of comments and hearing requests, extending the comment period to February 13, 2004. During the comment period, OSHA received two requests for a public hearing (Exs. 40–13 and 43–1). OSHA is granting these requests. The Agency is placing the Notices of Intention to Appear, hearing testimony, and documentary evidence in the rulemaking docket, which will be available for inspection and copying at the OSHA Docket Office.

Public Participation—Comments and Hearings

OSHA encourages members of the public to participate in this rulemaking by providing oral testimony and documentary evidence at the informal public hearing. Accordingly, the Agency invites interested parties having knowledge of, or experience with, the issues raised in the Notice of Proposed Rulemaking (NPRM) to participate in this process, and welcomes any pertinent data that will provide the Agency with the best available evidence to use in developing the final rule. This section describes the procedures the public must use to schedule an opportunity to deliver oral testimony and to provide documentary evidence at the informal public hearing.

Hearing arrangements. Pursuant to section 6(b)(3) of the Occupational Safety and Health Act (“the Act”; 29 U.S.C. 655), members of the public must have an opportunity at the informal public hearing to provide oral testimony concerning the issues raised in the NPRM. An administrative law judge will preside over the hearing, and will resolve any procedural matters relating to the hearing on the first day.

Purpose of the hearing. The legislative history of Section 6 of the Act, as well as the Agency’s regulation governing public hearings (29 CFR 1911.15), establish the purpose and procedures of informal public hearings. Although the presiding officer of the hearing is a judge and questions by interested parties are allowed on pertinent issues, the hearing is informal and legislative in purpose. Therefore, the hearing provides interested parties with an opportunity to make effective and expeditious oral presentations in the absence of procedural restraints that could impede or protract the rulemaking process. The hearing is not an adjudicative proceeding subject to the technical rules of evidence; instead, it is

an informal administrative proceeding convened for the purpose of gathering and clarifying information. The regulations that govern the hearing, and the pre-hearing guidelines issued for the hearing, will ensure that participants are treated fairly and have due process; this approach will facilitate the development of a clear, accurate, and complete record. Accordingly, application of these rules and guidelines will be such that questions of relevance, procedures, and participation will be decided in favor of developing a complete record.

Conduct of the hearing. Conduct of the hearing will conform to the provisions of 29 CFR part 1911 (“Rules of Procedure for Promulgating, Modifying, or Revoking Occupational Safety and Health Standards”). Although the judge who presides over the hearing makes no decision or recommendation on the merits of the NPRM or the final rule, the judge has the responsibility and authority to ensure that the hearing progresses at a reasonable pace and in an orderly manner. To ensure that interested parties receive a full and fair informal hearing, the judge has the authority and power to: Regulate the course of the proceedings; dispose of procedural requests, objections, and similar matters; confine the presentations to matters pertinent to the issues raised; use appropriate means to regulate the conduct of the parties who are present at the hearing; question witnesses, and permit others to question witnesses; and limit the time for such questions. At the close of the hearing, the judge will establish a post-hearing comment period for parties who participated in the hearing. During the first part of this period, the participants may submit additional data and information to OSHA, and during the second part of this period, they may submit briefs, arguments, and summations.

Notice of Intention to Appear to provide testimony at the informal public hearings. Hearing participants must file a Notice of Intention to Appear that provides the following information: The name, address, and telephone number of each individual who will provide testimony; the capacity (*e.g.*, name of the establishment/organization the individual is representing; the individual’s occupational title and position) in which the individual will testify; approximate amount of time requested for the individual’s testimony; specific issues the individual will address, including a brief description of the position that the individual will take with respect to each of these issues; and any documentary evidence the

individual will present, including a brief summary of the evidence.

OSHA emphasizes that, while the hearing is open to the public and interested parties are welcome to attend, only a party who files a proper Notice of Intention to Appear may ask questions and participate fully in the hearing. A party who did not file a Notice of Intention to Appear may be allowed to testify at the hearing if time permits, but this determination is at the discretion of the presiding judge.

Hearing testimony and documentary evidence. The Agency will review each submission and determine if the information it contains warrants the amount of time requested. OSHA then will allocate an appropriate amount of time to each presentation, and will notify the participants of the time allotted to their presentations. Prior to the hearing, the Agency will notify the participant if the allotted time is less than the requested time, and will provide the reasons for this action. OSHA may limit to 10 minutes the presentation of any participant who fails to comply substantially with these procedural requirements. The Agency may also request a participant to return for questions at a later time.

Certification of the record and final determination after the informal public hearing. Following the close of the hearing and post-hearing comment period, the judge will certify the record to the Assistant Secretary of Labor for Occupational Safety and Health. This record will consist of all of the written comments, oral testimony, documentary evidence, and other material received during the hearing. Following certification of the record, OSHA will review the proposed provisions in light of all the evidence received as part of the record, and then will issue the final determinations based on the entire record.
