Certain Hot-Rolled Carbon Steel Flat Products From Thailand: Final Results and Partial Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") has conducted an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand produced and/or exported by Sahaviriya Steel Industries Public Company Limited ("SSI"), Nakornthai Strip Mill Public Co., Ltd. ("Nakornthai"), and Siam Strip Mill Public Co., Ltd. ("Siam Strip"). The period of review ("POR") is May 3, 2001, through October 31, 2002. Based on our analysis of comments received, these final results remain unchanged from the Preliminary Results. The final results are listed below in the "Final Results of Review" section.

EFFECTIVE DATE: April 13, 2004.

FOR FURTHER INFORMATION CONTACT: Helen Kramer at (202) 482-0405 or Ann Barnett-Dahl at (202) 482-3833, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 2003, the Department published the preliminary results and partial rescission of its administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand. *See Certain Hot-Rolled Steel from Thailand: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 68336 (December 8, 2003) ("Preliminary Results").

We invited parties to comment on the Preliminary Results. On January 8, 2003, we received case briefs from SSI and Nucor Corporation ("the Petitioner"). On January 12, 2003, we received rebuttal briefs from SSI and the Petitioner. A hearing was not requested.

Partial Rescission

In our preliminary results, we announced our preliminary decision to rescind the review with respect to Nakornthai and Siam Strip because these companies had no entries of hot-rolled steel from Thailand during the POR. *See Preliminary Results*. We have received no new information contradicting the decision. Therefore, we are rescinding the administrative review with respect to Nakornthai and Siam Strip.

Scope of the Antidumping Duty Order

The products covered by this antidumping duty order are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included within the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as
