

businesses, small government organizations, and small government jurisdictions.

For purposes of assessing the impacts of the proposed rule on small entities, small entity is defined as follows:

(1) A small business in the regulated industry that has a gross annual revenue less than \$6 million;

(2) A small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; or

(3) A small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field.

Section 605 of the RFA requires Federal agencies to give special consideration to the impacts of regulations on small entities, which are small businesses, small organizations, and small governments. During the 1995 MWC rulemaking, EPA estimated that few, if any, small entities would be affected by the promulgated guidelines and standards and, therefore, a regulatory flexibility analysis was not required (*see* 60 FR 65413).

After considering the economic impacts of today's proposed rule on small entities, I certify that the proposed rule will not have a significant economic impact on a substantial number of small entities. The proposed rule will not impose any requirements on small entities because it does not impose any additional regulatory requirements.

Synopsis

On May 25, 2004, the Commission released a *Public Notice* seeking comment on the National Association of State Utility Consumer Advocates' (NASUCA) petition for declaratory ruling regarding truth-in-billing and billing formats for both wireline and wireless telecommunications carriers. See Petition for Declaratory Ruling, CC Docket No. 98-170, filed March 30, 2004. The *Public Notice* stated that interested parties could file comments within 30 and 45 days respectively, after its publication in the **Federal Register**. See National Association of State Utility Consumer Advocates (NASUCA) Petition for Declaratory Ruling Regarding Truth-in-Billing and Billing Format, CG Docket No. 04-208, *Public Notice*, 69 FR 33021, June 14, 2004. The *Public Notice* was published in the **Federal Register** on June 14, 2004, making comments due on or before July 14, 2004, and reply comments on or before July 29, 2004. *Id.* On June 11, 2004, the NASUCA filed a motion to extend the deadline for filing reply comments in this proceeding. See NASUCA Motion for Extension of Time, CG Docket No. 04-208 (filed June 11, 2004). In its pleading NASUCA requests an extension of time to file reply comments stating that "[i]n light of the important legal, economic and policy issues raised in NASUCA's petition and the volume of comments that are likely to be filed in response to that petition, the 15-day period allowed for in the *Public Notice* is simply not adequate to permit NASUCA and others to provide the Commission with a full reply joining the issues." *Id.* at 2. NASUCA goes on to suggest that "a brief, 15-day extension will greatly facilitate the development of a complete record for the Commission's review." *Id.* at 2. It is the policy of the Commission that extensions of time are not routinely granted. See 47 CFR 1.46(a). In this instance, however, the Bureau finds that NASUCA has shown good cause for an extension of the deadline for filing reply comments in this proceeding. Because of the complexity of the issues involved and the high number of comments expected to be filed, we grant a limited extension so that parties may file reply comments

in this docket on or before August 13, 2004.

Accordingly, *it is so ordered*, pursuant to the authority delegated under section 0.141 of the Commission's rules, 47 CFR 0.141, that NASUCA's Motion for Extension of Time in the above-captioned proceeding *is granted* to the extent set forth herein.

Federal Communications Commission.

Deputy Chief, Consumer & Governmental Affairs Bureau.

[Docket No. NHTSA-2004-18039]

NHTSA's Four-Year Plan for Hydrogen, Fuel Cell and Alternative Fuel Vehicle Safety Research

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Request for comments.

SUMMARY: This notice announces the availability of a planning document that describes the scope and timeline of NHTSA's proposed research program addressing safety and fuel economy assessment of hydrogen-powered fuel cell and internal combustion engine vehicles.

Ensuring that hydrogen internal combustion engine (ICE) and fuel cell powered vehicles provide a level of safety comparable to that of other vehicles currently in use in the United States requires a substantial research effort. Hydrogen-powered vehicles will utilize many advanced and unique technologies that have not been tested in the transportation environment. Very little data are available concerning the safe performance of these vehicles because so few exist; they are typically prototypes handled by specially trained personnel. Many manufacturers, however, are substantially investing in producing and marketing these vehicles in the near future. As these vehicles are deployed into the fleet, the safety of hydrogen as a fuel and the safety of alternative fuel vehicles in crashes becomes an important issue for public safety. A failure to adequately address safety concerns in the earliest stages of development could have a negative impact on the deployment of this new technology.

Corollary efforts by NHTSA that are covered in the plan address fuel economy and international harmonization of global technical regulations for hydrogen vehicles. The agency will analyze the potential increases in the fleet fuel economy. NHTSA will also work with its international counterparts to determine the content of regulations pertaining to fuel cell and ICE hydrogen vehicles.

NHTSA seeks public review and comment on the planning document. Comments received will be evaluated and incorporated, as appropriate, into planned agency activities.

DATES: Comments should be submitted early enough to ensure that Docket Management receives them not later than October 12, 2004.

ADDRESSES: Interested persons may obtain a copy of the research plan by downloading the document from the Document Management System (DMS), U.S. Department of Transportation, at the address provided below, or from NHTSA's Web site at <http://www-nrd.nhtsa.dot.gov/departments/nrd-11/H2-4yr-plan.html>.
