

(D) Use your user name or password following termination, either by BIS or by your company, of your authorization or approval for Web-DESI use.

(iv) To prevent misuse of the Web-DESI account:

(A) If Web-DESI user account information (*i.e.*, user name and password) is lost, stolen or otherwise compromised, the company and the user must report the loss, theft or compromise of the user account information, immediately, by calling BIS at (703) 235-1335. Within two business days of making the report, the company and the user must submit written confirmation to BIS at the address provided in § 711.6 of the CWCRC.

(B) Your company is responsible for immediately notifying BIS whenever a Web-DESI user leaves the employ of the company or otherwise ceases to be authorized by the company to submit declarations and reports electronically on its behalf.

(v) No person may use, copy, appropriate or otherwise compromise a Web-DESI account user name or password assigned to another person. No person, except a person authorized access by the company, may use or copy the facility, plant site or trading company password (U.S.C password), nor may any person steal or otherwise compromise this password.

(c) *Electronic submission of declarations and reports.* (1) *General instructions.* Upon submission of the required certifications and approval of the company's request to use electronic submission, BIS will provide instructions on both the method for transmitting declarations and reports electronically and the process for submitting required supporting documents, if any. These instructions may be modified by BIS from time to time.

(2) *Declarations and reports.* The electronic submission of a declaration or report will constitute an official document as required under parts 712 through 715 of the CWCRC. Such submissions must provide the same information as written declarations and reports and are subject to the recordkeeping provisions of part 720 of the CWCRC. The company and Web-DESI user submitting the declaration or report will be deemed to have made all representations and certifications as if the submission were made in writing by the company and signed by the certifying official. Electronic submission of a declaration or report will be considered complete upon transmittal to BIS.

(d) *Updating.* A company approved for electronic submission of declarations or reports under Web-DESI must promptly notify BIS of any change in its name, ownership or address. If your company wishes to have an individual added as a Web-DESI user, your company must inform BIS and follow the instructions provided by BIS. Your company should conduct periodic reviews to ensure that the company's designated certifying official and Web-DESI users are individuals whose current responsibilities make it necessary and appropriate that they act for the company in either capacity.

BILLING CODE 3510-33-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 385

[Docket No. RM04-3-000; Order No. 645]

Emergency Closures

Issued December 18, 2003.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Commission is modifying its regulations governing computation of time to cover situations in which its offices are closed due to temporary emergency conditions such as severe weather. This change will prevent unintended Commission action and eliminate possible hardship by ensuring that filing deadlines and deadlines for action by the Commission do not expire during times when the Commission is unable to accept filings or issue orders.

EFFECTIVE DATE: The rule will become effective December 18, 2003.

FOR FURTHER INFORMATION CONTACT: Wilbur Miller, Federal Energy Regulatory Commission, 888 First Street, NW., Washington, DC 20426, (202) 502-8953.

SUPPLEMENTARY INFORMATION:

Before Commissioners: Pat Wood, III, Chairman; Nora Mead Brownell, Joseph T. Kelliher, and Suedeen G. Kelly.

1. This Final Rule revises the Commission's regulations to ensure that filing deadlines and deadlines for action by the Commission do not expire during periods in which the Commission is

closed due to temporary emergency conditions, such as severe weather emergencies. The Commission's regulations currently provide that the last day of a time period is not counted if that day is a Saturday, Sunday, part-day holiday that affects the Commission, or legal public holiday. 18 CFR 385.2007(a)(2) (2003) (Rule 2007). Thus, Rule 2007 would not have covered, for example, the Commission's temporary closure for two and one-half days in September 2003 due to the effects of Hurricane Isabel.

2. This Final Rule adds a provision to Rule 2007 covering temporary closures due to weather or other adverse conditions. The absence of such a provision could result in unintended action by the Commission or otherwise cause hardship to participants in Commission proceedings who face filing deadlines. This would particularly be a problem in connection with statutory deadlines that the Commission cannot extend, such as the 30-day period for requesting rehearing of a Commission order.¹ See 15 U.S.C. 717r(a) (Natural Gas Act); 16 U.S.C. 8251(a) (Federal Power Act). In addition, situations could arise in which the Commission is required to take action by a date certain but cannot do so because its offices are closed. For example, the Commission must act by a specified time on a rate proposal filed by a public utility, or an oil or natural gas pipeline, or the filing becomes effective by operation of law. See 16 U.S.C. 824d (Federal Power Act) (60 days); 15 U.S.C. 717c (Natural Gas Act) (30 days); 49 App. U.S.C. 6(3) (Interstate Commerce Act) (30 days). It is therefore in the public interest to revise the Commission's rules to ensure that a day on which it is closed due to adverse conditions does not count as the last day of the time period for a deadline.

3. In view of the foregoing, the Commission is making one addition to Rule 2007. Currently, the last day of a time period is extended if it falls on a weekend, part-day holiday or legal public holiday. The addition will cover days on which the Commission is closed due to adverse conditions. It will apply to full-day closures and also part-day closures as long as the Commission does not reopen prior to the official close of business.

¹ See, e.g., *Tennessee Gas Pipeline Co.*, 95 FERC ¶61,169 (Commission may not extend 30-day rehearing deadline, although it can provide rules for computing time as it has done in Rule 2007), *aff'd sub nom. Londonderry Neighborhood Coalition v. FERC*, 273 F.3d 416 (1st Cir. 2001).

Information Collection Statement

4. The Office of Management and Budget's (OMB) regulations require that OMB approve certain information collection requirements imposed by agency rule. 5 CFR part 1320. This Final Rule contains no information reporting requirements, and is not subject to OMB approval.

Environmental Analysis

5. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.² Issuance of this Final Rule does not represent a major federal action having a significant adverse effect on the human environment under the Commission's regulations implementing the National Environmental Policy Act.³ Part 380 of the Commission's regulations lists exemptions to the requirement that an Environmental Analysis or Environmental Impact Statement be done. Included is an exemption for procedural, ministerial or internal administrative actions. 18 CFR 380.4(1) and (5). This rulemaking is exempt under that provision.

Regulatory Flexibility Act [Analysis or Certification]

6. The Regulatory Flexibility Act of 1980 (RFA)⁴ generally requires a description and analysis of final rules that will have significant economic impact on a substantial number of small entities. This final rule concerns a matter of internal agency procedure and the Commission therefore certifies that it will not have such an impact. An analysis under the RFA is not required.

7. In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through FERC's Home Page (<http://www.ferc.gov>) and in FERC's Public Reference Room during normal business hours (8:30 a.m. to 5 p.m. Eastern time) at 888 First Street, NE., Room 2A, Washington DC 20426.

Effective Date

10. These regulations are effective immediately upon issuance. In accordance with 5 U.S.C. 553(d)(3), the Commission finds that good cause exists to make this Final Rule effective immediately. The rule is intended to act as a contingency measure in order to preserve, rather than alter, the rights of persons appearing before the Commission. Therefore, there is no reason to make it effective at a later date.

11. The provisions of 5 U.S.C. 801 regarding Congressional review of Final Rules do not apply to this Final Rule, because the rule concerns agency procedure and practice and will not substantially affect the rights of non-agency parties.

12. The Commission is issuing this as a final rule without a period for public comment. Under 5 U.S.C. 553(b), notice and comment procedures are unnecessary where a rulemaking concerns only agency procedure and practice, or where the agency finds that notice and comment is unnecessary. This rule concerns only matters of agency procedure and will not significantly affect regulated entities or the general public.
