## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49434; File No. SR-BSE-2004-10]

### Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Boston Stock Exchange, Inc. Relating to the Amendment of its Constitution to Permit the Separation of the Chairman and Chief Executive Officer Positions

March 17, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on March 2, 2004 the Boston Stock Exchange, Inc. ("BSE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by BSE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange seeks to amend its Constitution to permit the separation of the Chairman and Chief Executive Officer roles. The proposed rule change is attached as Exhibit A hereto.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, BSE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. BSE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The BSE proposes to amend its Constitution to permit the separation of the Chairman and Chief Executive Officer functions. The separation would not be mandatory, but would be an option to be utilized by the Exchange's Board of Governors (the "Board") as deemed necessary and/or prudent to enhance the governance of the Exchange. The separation would also allow for the disconnection and independence of the Exchange's regulatory function from the exchange's marketplace function.

The BSE is not proposing this constitutional change due to any internal issues arising from its current governance structure. Rather, the Exchange is seeking to be proactive in concert with changes occurring in the control mechanisms of other market centers, particularly the New York Stock Exchange ("NYSE"). For that reason, the BSE is seeking effectiveness of the changes proposed by its next Board meeting in April 2004. However, the BSE, as a regional exchange, does not propose all of the changes recently enacted by the NYSE, primarily due to the fact that the BSE's size alone would make such a governance structure unwieldy and unworkable. The changes the Exchange proposes, though, do seek to achieve the same overall result of the separation of the Exchange's regulatory and marketplace functions, as warranted.

Moreover, in order to maintain flexibility in its primary governing document, the Exchange is purposefully not constitutionally mandating the separation of the Chairman and Chief Executive Officer roles, but is providing for their separation in the event that the Board determines such a separation to be practical, in light of current internal or external events. Presently, the Chairman has determined, and the Board has concurred, that it is desirous of more flexibility within the Exchange's Constitution so that it will be able to separate the Chairman and Chief Executive Officer roles.

As envisioned, the separation of the Chairman and Chief Executive Officer of the Exchange would provide for the independence of the BSE's regulatory function from any potentially inappropriate linkage with the marketplace function. Yet, the regulatory function would retain sufficient proximity to the marketplace to assure the market sensitivity that is

fundamental to effective regulation. If the Chairman and Chief Executive Officer of the Exchange are not the same person, then the present intention is that the Chairman, as an executive officer of the Exchange, would (1) preside over all meetings of the Board; (2) be responsible to the Board for the management of the BSE's regulatory affairs; (3) be responsible for the oversight of all exchange facilities,<sup>3</sup> subsidiaries, or other legal entities to which the Exchange is a party; and, (4) act as Board liaison to the Exchange's Chief Executive Officer and management. The Chief Executive Officer, according to present intention, would (1) be responsible for the management and administration of the affairs of the Exchange's marketplace functions; (2) not participate in executive sessions of the Board; and, (3) be subject to the authority of the Board.

The Exchange believes that the proposed governance architecture provides the best model for the BSE. It will permit the BSE, as a relatively small exchange, to resolve and manage conflicts of interest inherent in self-regulation while maintaining the marketplace proximity requisite for optimizing regulatory intervention in market mechanisms. Moreover, it will allow the Exchange to remain flexible in regard to its governance structure if and when future events may require a response.

##### 2. Statutory Basis

The statutory basis for the proposed rule change is the requirement under section 6(b)(1) of the Act<sup>4</sup> that an exchange be organized and have the capacity to be able to carry out the purposes of the Act, the requirement under section 6(b)(3) of the Act<sup>5</sup> that the rules of an exchange assure a fair representation of its members in the selection of its directors and administration of its affairs, and the requirement under section 6(b)(5) of the Act<sup>6</sup> to have rules that are designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in

<sup>3</sup> Under the Act, "the term 'facility' when used with respect to an exchange includes its premises, tangible or intangible property whether on the premises or not, any right to the use of such premises or property or any service thereof for the purpose of effecting or reporting a transaction to an exchange (including, among other things, any system of communication to or from the exchange, by ticker or otherwise, maintained by or with the consent of the exchange), and any right of the exchange to the use of any property or service." regulating securities transactions, to remove impediments to perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Written comments were neither solicited nor received.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on August 14, 2003, the Chicago Stock Exchange, Incorporated (“CHX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. **I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change**

The Exchange proposes to amend CHX Article XX, Rule 37(a)(3)(a), which governs execution of resting limit orders based on certain conditions in the primary market. Specifically, the proposed rule change would permit the Exchange’s Rules Subcommittee to designate the primary market in each listed issue for purposes of determining limit order execution guarantees to be offered on the CHX.

If a security is traded on both the NYSE and the Amex, whichever exchange is the initial listing market shall be designated as the primary market. If the initial listing market is a market other than the NYSE or the AMEX, but is traded by both the NYSE and the AMEX, the primary market shall be the market with the largest trading volume in the subject security, calculated on a twelve-month rolling basis.*

**II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of

the most significant aspects of such statements.

*A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

**1. Purpose**

The proposed rule change would amend CHX Article XX, Rule 37(a)(3)(a), which governs execution of resting limit orders based on certain conditions in the primary market. Specifically, the proposed rule change would permit the Exchange’s Rules Subcommittee to designate the primary market in each listed issue for purposes of determining the limit order execution guarantees to be offered on the CHX.

For many years, the CHX has guaranteed limit order protection, *i.e.*, execution of limit orders at the limit price based on certain conditions in the primary market.<sup>4</sup> The current version of CHX Article XX, Rule 37(a)(3)(a) notes that the “primary market” is determined using the CTA Plan definition of that term. Under the CTA Plan, the primary market is the exchange where the greatest number of reportable transactions in a particular security have taken place during the preceding six-month period.<sup>5</sup> As described below, the Exchange no longer believes it is appropriate to base its limit order execution guarantees on that definition of a primary market.

The CHX believes that, as an initial matter, in today’s increasingly fragmented markets, the existing definition could result in a constant re-designation of the primary market, as trading moves from venue to venue. Moreover, the definition may cause the Exchange to provide CHX limit order executions that are not desired by the Exchange’s order-sending firms and the investors they serve. In many cases, customers may want their limit orders

<sup>4</sup> Under the current version of CHX Article XX, Rule 37(a)(3), all agency limit orders must be filled at the limit price when one of three conditions occurs: (i) when the bid or offer in the primary market has been exhausted, CHX agency limit orders are executed at the limit price up to the volume of subsequent prints in the primary market; (ii) when there is a price penetration in the primary market, agency limit orders that have resided in the CHX specialist’s book for up to 15 seconds must be executed at the limit price; and (iii) when the issue is trading at the limit price on the primary market, CHX agency limit orders must be executed at the limit price unless it can be demonstrated that such orders would not have been executed at the limit price (or the broker and specialist agree to a specific volume-related or other criteria for requiring a fill).

<sup>5</sup> See Second Restatement of Plan Submitted to the Securities and Exchange Commission Pursuant to Rule 11A3-1 Under the Securities Exchange Act of 1934, as amended and restated (the “CTA Plan”), at Section XI(a)(ii).
