Information is also collected about students receiving various types of services such as English Language Learner services. The CCD also collects information about the occurrence of high school dropouts. Information about teachers and staffing is also collected. The information that institutions provide will be used for a variety of administrative and statistical purposes by the Department of Education and will also be publicly available in identifiable form on the Department of Education's Web site.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On September 7, 2004, the Office of Fossil Energy (FE) of the Department of Energy (DOE) received an application from MLCI to transmit electric energy from the United States to Canada. MLCI is a Delaware corporation with its principal place of business located in New York City, NY. MLCI is an indirect wholly-owned subsidiary of Merrill Lynch & Co. Inc., a Delaware corporation. MLCI has requested an electricity export authorization with a 5-year term. MLCI does not own or control any transmission or distribution assets, nor does it have a franchised service area. The electric energy which MLCI proposes to export to Canada would be purchased from electric utilities and Federal power marketing agencies within the U.S.

MLCI proposes to arrange for the delivery of electric energy to Canada over the existing international transmission facilities owned by Basin Electric Power Cooperative, Bonneville

Power Administration, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnekota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, Vermont Electric Power Company and Vermont Electric Transmission Company. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by MLCI, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Sauter, McDermott Will & Emery LLP, 600 13th Street, NW., Washington, DC 20005-3096.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.de.gov>. Upon reaching the Fossil Energy Home page, select "Electricity Regulation," and then "Pending Procedures" from the options menus.
