

releasing the Proposed RMP/FEIS. In addition, BLM extensively coordinated with the Military to ensure all safety and mission operation concerns were resolved. After this coordination was completed the Military and BLM supported the Proposed RMP/FEIS, as written. This RMP/ROD addresses management on approximately 1.5 million acres of withdrawn public land in the planning area. The NTTR RMP/ROD is designed to achieve or maintain desired future conditions developed through the planning process. It includes a series of management actions to meet the desired resource conditions for upland and riparian vegetation, wildlife habitats, cultural and visual resources, wild horse management, livestock grazing, limited hunting recreation and military mission and safety objectives.

The approved NTTR RMP is essentially the same as Alternative B in the Proposed NTTR RMP/Final Environmental Impact Statement (PRMP/FEIS), published in May 2003. The primary difference being, the Military and BLM agreed to an Appropriate Management Level (AML) of 300–500 for wild horses. The Military felt comfortable that this lower number of horses would significantly reduce mission and safety concerns and still allow management of wild horses on the NTTR. BLM received 1 protest to the PRMP/FEIS. No inconsistencies with State or local plans, policies, or programs were identified during the Governor's consistency review of the PRMP/FEIS. As a result, only minor editorial modifications were made in preparing the RMP/ROD. These modifications corrected errors that were noted during review of the PRMP/FEIS and provide further clarification for some of the decisions. An errata sheet is included with the RMP/ROD that identifies the location of the corrections in the PRMP/FEIS.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-149 (Second Review)]

Barium Chloride From China**Determination**

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission determines, pursuant to section 751(c) of the Tariff Act of 1930 (the Act),² that revocation of the antidumping duty order on barium chloride from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

The Commission instituted this review on February 2, 2004 (69 FR 4979), and determined on May 7, 2004, that it would conduct an expedited review (69 FR 28947, May 19, 2004).

The Commission transmitted its determination in this review to the Secretary of Commerce on July 1, 2004. The views of the Commission are contained in USITC Publication 3702 (July 2004), entitled *Barium Chloride From China: Investigation No. 731-TA-149 (Second Review)*.

Issued: July 20, 2004.

By order of the Commission.
