

Access to NEMIS–MT eGrants via the Intranet is assigned to the FEMA employees and contractors for official purposes only through the NEMIS Access Control System (NACS), which controls access to all software available on the FEMA Intranet, and manages roles for FEMA officials accessing the system. Access to NEMIS–MT eGrants via the Internet is assigned to the Applicants/States and Sub-applicants/ local communities for official purposes only through the FEMA Access Management System, which performs a similar function to NACS, but for eligible mitigation grant program Applicants/States and Sub-applicants/ local communities, and managed roles for these non-FEMA users. The functions of these two databases will be combined into the Integrated Security and Access Control System. While the system is accessed, if an active NEMIS–MT eGrants browser window is left open with no actions taken within the system, the displayed page will expire after 30 minutes. The user can then re-login using the username and password to access the system. In addition, the system will not allow a user to bookmark the URL of the MT eGrants with the intent of returning to that page at another time without first entering the authorized username and password. Finally, FEMA Enterprise Operations and the Office of Cyber Security are able to monitor system use and determine whether information integrity has been compromised by unauthorized access or use, and whether corrective action by the Office of the Chief Information Officer is necessary. Procedures are compliant with Title III of the E–Government Act of 2000 (Federal Information Security Management Act).

RETENTION AND DISPOSAL:

In accordance with U.S. National Archives & Records Administration records retention regulations (GRS 3, 13), records are retained for 6 years and 3 months. Unsuccessful grant application files will be stored in NEMIS–MT eGrants for 3 years from the date of denial, and then deleted. Successful grant application files will be stored in the NEMIS–MT eGrants for 6 years and 3 months from the date of closeout (where closeout is the date FEMA closes the grant in its financial system) and then deleted. Computerized records are stored in a database server in a secured file server room. Hard copy records are maintained for 6 years and 3 months years, at which time they are retired to the Federal Records Center. The same retention schedule that applies to paper records will be followed. This is consistent with the

records retention schedule that has been developed for this system.

These individuals voluntarily request that their State, Territory, or local community submit an application for FEMA mitigation grant funds for the purpose of mitigating their property and/or structure (e.g., house or commercial building).

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.
