

Form No.: Not applicable.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 25.
Estimated Time Per Response: 1 hour.
Frequency of Response: Annual reporting requirement and recordkeeping requirement.
Total Annual Burden: 25 hours.
Total Annual Cost: \$5,000.
Privacy Act Impact Assessment: Not applicable.

Needs and Uses: The Commission has revised this information collection to remove the pre-implementation status reports which were a one-time only requirement that has now past. This information collection has removed the burden hours and costs associated with this one-time requirement. Additionally, the Commission is now requiring mandatory electronic filing of the post-implementation reports. The mandatory electronic filing requirement of these reports is due to the Commission annually beginning on October 15, 2005.

The information collections that result from the E911 Scope Second Report and Order, FCC 04-201, IB Docket No. 99-67, are used by the Commission under its authority to license commercial satellite services in the United States. Without the collection of information that would result from these rules, the Commission would not be able to monitor the Mobile Satellite Services (MSS) carriers' establishment of call centers which are essential to provide emergency services, such as handling emergency 911 telephone calls from American citizens. The recordkeeping and reporting requirements include data on MSS call center use such as the aggregate number of calls that the call centers receive and the number of calls that required

forwarding to a local Public Safety Answering Point (PSAP). The Commission will use this data to monitor compliance with the call center requirement and track usage trends. Such information would be useful to the Commission in considering whether FCC rules require modification to accommodate the changing market.

Federal Communications Commission.

Secretary.
