

Notice of Intent will be mailed to landowners within and immediately adjacent to the allotment area, as well as those people and organizations on the Coconino National Forest's mailing list that have indicated a specific interest in the Deep Lake Allotment area or grazing management in general. The public will be notified of any meetings regarding this proposal by mailings and press releases sent to the local newspaper and media. There are no meetings planned at this time.

Comments Requested

This Notice of Intent initiates the scoping process under NEPA, which will guide development of the EIS. Comments concerning the scope of this project should be received within 30 days of the date of publication of this Notice of Intent. Our desire is to receive substantive comments on the merits of the Proposed Action, as well as comments that address errors, misinformation, or information that has been omitted. Substantive comments are defined as comments within the scope of the proposal have a direct relationship to the proposal, and that include supporting reasons for the Responsible Official's consideration.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft EIS will be prepared for comment. The comment period on the draft EIS will be 45 days from the date the Environmental Protection Agency publishes the Notice of Availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully

consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR part 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality.

Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and if the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.
