Case History

On May 14, 2004, the Department of Commerce ("the Department") received petitions for the imposition of antidumping duties on imports of chlorinated isocyanurates from the PRC and Spain, filed, in proper form, by Clearon Corporation and Occidental Chemical Corporation (hereafter known as the "Petitioners"). On May 24 and 28, 2004, the Petitioners filed amendments to their petition.

On June 4, 2004, the Department initiated antidumping duty investigations on chlorinated isocyanurates from the PRC and Spain. *See Notice of Initiation of Antidumping Duty Investigations: Chlorinated Isocyanurates from the People's Republic of China and Spain*, 69 FR 32488 (June 10, 2004) ("Initiation Notice"). The Department set aside a period for all interested parties to raise issues regarding product coverage. *See Initiation Notice*, 69 FR at 32489. We received comments regarding product coverage from interested parties. For a detailed discussion of the comments regarding the scope of the merchandise under investigation, please see the "Scope Comments" section below.

On June 4, 2004, the Department notified the International Trade Commission ("ITC") of the antidumping investigation initiation and the intent to publish in the **Federal Register** a notice of such initiation. On June 17, 2004, the Department issued initiation instructions to U.S. Customs and Border Protection ("CBP").

On June 28, 2004, the ITC issued its affirmative preliminary determination that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from the PRC of chlorinated isocyanurates. *See*
