SUPPLEMENTARY INFORMATION: The FAA prepared this DEIS to disclose the potential environmental impacts resulting from the proposed relocation of the Panama City-Bay County International Airport to a new site in Bay County, Florida. The U.S. Army Corps of Engineers (USACE) is a cooperating federal agency for this DEIS, having jurisdiction by law because the proposed Federal action has the potential for significant wetland impacts. The proposed new site would accommodate airfield development that would meet both short- and long-term aviation needs without being constrained by natural or man-made features. Initial development components of the proposed relocated airport would consist of airport and terminal facilities, and include a primary air carrier runway of 8,400 feet and a general aviation crosswind runway of 5,000 feet. This system would be supported by the necessary ancillary facilities including parallel and connecting taxiways, terminal area facilities, general aviation facilities, air traffic control and emergency service facilities, and lighting and navigation facilities. These initial development components are the subject of this DEIS.

The purpose and need for these improvements is reviewed in the DEIS. All reasonable alternatives will be considered, including the no-action alternative.

Comments from interested parties on the DEIS are encouraged and may be presented verbally at the public information meeting and/or public hearing or may be submitted in writing to the FAA at the address listed in the section entitled **FOR FURTHER INFORMATION CONTACT**. The comment period will close on January 21, 2005.

Background

Based on data industry has presented to the FAA, in-seat video system designs have matured to the point that dedicated testing would not be required per 14 CFR 25.601. Industry may use design review as a method of compliance to show that the system is non-hazardous. This policy recommends analysis as an added method of compliance, in lieu of test, and should clarify questions that have arisen regarding previously released policy on this subject.

Issued in Renton, Washington, on November 10, 2004.

Manager, Transport Airplane Directorate, Aircraft Certification Service.
