**Notice of Receipt of Conveyance of Mineral Interest Application**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of minerals segregation.

**SUMMARY:** The reserved federally-owned mineral interest, in the private lands described in this notice, aggregating approximately 160 acres, are segregated and made unavailable for filings under the general mining laws and the mineral leasing laws. The reserved Federal mineral interests will be conveyed in whole or in part upon completion of a mineral examination. The purpose is to allow consolidation of surface and subsurface minerals ownership where there are no known mineral values or in those instances where the Federal mineral interest reservation interferes with or precludes appropriate nonmineral development and such development is a more beneficial use of the land than the mineral development. Upon publication of this notice of segregation in the **Federal Register** as provided in 43 CFR 2720.1-1(b), the mineral interests owned by the United States in the lands covered by the mineral conveyance application are segregated to the extent that they will not be subject to appropriation under the public land laws, including the mining and mineral leasing laws. The segregative effect shall terminate upon: Final rejection of the mineral conveyance application; or February 2, 2006, whichever occurs first. If the United States issues a patent or deed of such mineral interest, the mineral interest will no longer be subject to the public land laws, including the mining leasing laws.
