

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE**45 CFR Parts 2531 and 2533**

RIN 3045-AA40

Innovative and Demonstration Programs and National Service Fellowships**AGENCY:** Corporation for National and Community Service.**ACTION:** Final rule.

SUMMARY: The Corporation for National and Community Service (hereinafter the "Corporation") hereby amends its regulations that require the Corporation to announce in the **Federal Register** its grant application procedures, selection criteria, timing, and other requirements. The Grants.gov FIND module is now used by all Federal agencies to post electronically synopses of funding opportunities under Federal financial assistance programs that award discretionary grants and cooperative agreements. In addition, each agency must post the full announcement electronically. (See 68 FR 58146, October 8, 2003) The Corporation fulfills this requirement by posting its grant announcements on its Web site: <http://www.cns.gov.whatshot/notices.html>. These revisions will eliminate provisions in certain regulations that state that the Corporation will publish announcements in the **Federal Register**.

Because the Corporation is required to post its funding opportunities on Grants.gov, and post its full funding announcement electronically on its Web-site (68 FR 58146), the Corporation considers these changes to be administrative in nature. Further, this rule does not meet the definition of "rule" in 5 U.S.C. 804(3)(A) because it is a rule of "particular applicability." Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801-808.

DATES: These changes are effective as of February 10, 2004.**FOR FURTHER INFORMATION CONTACT:** Mr. William L. Hudson, Telephone: (202) 606-5000 ext. 265 or via Internet: whudson@cns.gov.**SUPPLEMENTARY INFORMATION:****List of Subjects***45 CFR Part 2531*

I. Introduction and Summary

1. In this Third Report and Order, we address several matters related to the administration of the schools and libraries universal service mechanism (also known as the e-rate program). First, we adopt rules that will limit the ability of schools and libraries to engage in wasteful or fraudulent practices when obtaining internal connections. Specifically, we conclude that eligible entities should be precluded from upgrading or replacing internal connections on a yearly basis. Instead, our rules will permit a particular eligible entity to receive support for discounted internal connections services no more than twice in every five years. We will permit, however, entities to receive discounts on basic maintenance associated with internal connections on a yearly basis, but clarify our rules regarding permissible maintenance costs to ensure that such discounts are appropriately narrow. We also prohibit a school or library from transferring equipment purchased with universal service discounts, as part of eligible internal connections services, for a period of three years except in limited circumstances. These rules will advance the goals of the schools and libraries program by making support for internal connections regularly available to a larger number of applicants and by discouraging waste, fraud, and abuse. We also adopt a rule creating a more formal process for updating annually the list of services eligible for support. In addition, we codify the Universal Service Administrative Company's (USAC or the Administrator) current
