Federal Aviation Administration

[Summary Notice No. PE-2004-09]

Petitions for Exemption; Summary of Petitions Received

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption part 11 of Title 14, Code of Federal Regulations (14 CFR), this notice contains a summary of certain petitions seeking relief from specified requirements of 14 CFR, dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before March 1, 2004.

ADDRESSES: You may submit comments [identified by DOT DMS Docket Number FAA-200X-XXXXX] by any of the following methods:

- *Web Site:* <http://dms.dot.gov>.

Follow the instructions for submitting comments on the DOT electronic docket site.

- *Fax:* 1-202-493-2251.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC 20590-001.

- *Hand Delivery:* Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 am and 5 pm, Monday through Friday, except Federal holidays.

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Docket: For access to the docket to read background documents or comments received, go to <http://dms.dot.gov> at any time or to Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 am and 5

pm, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Tim Adams (202) 267-8033, Sandy Buchanan-Sumter (202) 267-7271, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85 and 11.91.

Issued in Washington, DC, on February 4, 2004.

Donald P. Byrne,

Assistant Chief Counsel for Regulations.

Petitions for Exemption

Docket No.: FAA-2003-16475.

Petitioner: Soaring Society of America, Inc.

Section of 14 CFR Affected: 14 CFR 91.215(c).

Description of Relief Sought:

To allow members of the Soaring Society of America, Inc., to operate transponder-equipped gliders with the transponders turned off, when the glider is being operated more than 40 nautical miles from the primary airport in class B airspace and more than 20 nautical miles from the primary airport in class C airspace.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Policy Regarding the Eligibility of Airport Ground Access Transportation Projects for Funding Under the Passenger Facility Charge Program

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In accordance with section 123(e) of the Vision 100—Century of Aviation Reauthorization Act, (Pub. L. 108-176, December 12, 2003), the Federal Aviation Administration (FAA) is publishing its policy with regard to the eligibility of airport ground access transportation projects for funding under the Passenger Facility Charge (PFC) program.

The FAA determines the eligibility of airport ground access transportation projects, no matter the technology proposed (e.g. road, heavy or light rail, water) for funding under the PFC program, on a case-by-case basis after a review of the particulars associated with each unique proposal. In general, a request to use PFC's to fund an airport ground access transportation project must be submitted by a qualified applicant and the project must be eligible for funding under the Airport Improvement Program (AIP); meet at least one of the PFC program objectives and, if applicable, at least one of the significant contribution requirements¹; and be adequately justified (49 U.S.C. 40117(d)(3)). In addition, all PFC projects must conform to other applicable regulatory requirements as referenced in 14 CFR part 158 (e.g., environmental requirements, specified implementation schedules). Airport ground access transportation projects proposed at a PFC level higher than \$3 must also conform to the AIP funding test (49 U.S.C. 40117(b)(4)(B); 14 CFR 158.17(a)(2)) and the airside needs test (49 U.S.C. 40117(d)(4); 14 CFR 158.17(a)(3)).

ADDRESSES: This is an informational notice only and comments are not being solicited at this time.

¹ As the FAA has applied the significant contribution requirement, a finding that a project meets a PFC objective is subsumed within a finding that a project meets the significant contribution requirement.

FOR FURTHER INFORMATION CONTACT: Sheryl Scarborough, Financial Analysis and Passenger Facility Charge Branch (APP-510), Room 619, Airports Financial Assistance Division, Office of Airport Planning and Programming, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-8825.

SUPPLEMENTARY INFORMATION: In recent years, the FAA has been requested to approve PFC funding of airport ground access transportation facilities. Proposals to build rail transit projects in particular have tended to involve large amounts of funds—from several hundred million to more than a billion dollars—and thereby generated close scrutiny, if not controversy. The Federal Transit Administration (FTA) estimates that three dozen or more localities currently have plans or proposals to build fixed guideway access projects to their airports.

We are publishing this policy to comply with the requirement of section 123(e) of the Vision Act. Section 123(e) directs the FAA to publish its current policy on airport ground access transportation project eligibility for PFC funding within 60 days after enactment of the Vision 100 Act. By consolidating guidance set forth in the preamble to the PFC regulation as well as the PFC regulation itself (14 CFR part 158), FAA Order 5500.1 "Passenger Facility Charge" (August 9, 2001), the AIP Handbook (change 1 to FAA Order 5100.38B (January 8, 2004), and FAA PFC Records of Decision and Final Agency Decisions approving the use of PFC revenue to finance airport ground access transportation projects, this notice should assist public agencies eligible to impose PFC's, air carriers, local transit operators, and other stakeholders in understanding how the FAA applies the statutory and regulatory criteria governing the PFC program to airport ground access transportation projects. The FAA has a more extensive background in evaluating highway ground access projects through its experiences with the various FAA airport grant programs and through the numerous requests for PFC funding of highway access projects (e.g. Las Vegas McCarran International, Miami International, and Baltimore-Washington International Airports). Therefore, although it can be used for any proposed mode of transportation, this summary of FAA policy reflects the FAA's recent experience in approving three major fixed guideway access projects—the Light Rail System (LRS) at John F. Kennedy International Airport
