SUPPLEMENTARY INFORMATION: This notice informs the public that the

Department of Housing and Urban Development (HUD) has submitted to OMB for review and processing under the Paperwork Reduction Act an information collection package with respect to HUD's Affordable Communities Award, a non-monetary award designed to acknowledge and honor those jurisdictions or communities that are expanding affordable housing opportunities by reducing regulatory barriers and creating an environment supportive of the construction and rehabilitation of affordable housing.

In June 2003, HUD announced a new initiative, America's Affordable Communities Initiative (Initiative). The Initiative focuses on breaking down regulatory barriers that impede the production or rehabilitation of affordable housing. As part of this initiative, HUD is examining federal, state and local regulations to identify those regulations that present significant barriers to the production or rehabilitation of affordable housing. HUD is currently reviewing its own regulations to identify regulatory barriers to affordable housing that HUD can and should change. HUD's intention is to lead by example. Another effort of the Initiative includes providing incentives to state and local governments to remove regulatory barriers. As part of HUD's FY2004 SuperNOFA, HUD included, as a policy priority, the removal of regulatory barriers. An applicant that meets the criteria of a policy priority is eligible to receive higher points. The removal of regulatory barriers will not only be a policy priority in HUD's FY2004 SuperNOFA but in other FY2004 NOFAs published independently from the SuperNOFA.

This non-monetary award announcement is designed to present an additional incentive to states, local, and tribal governments to become active in removing barriers to affordable housing to the extent feasible. This award will serve to publicly recognize jurisdictions or communities that have taken a

leadership role in reexamining their existing regulatory systems and have taken the necessary steps to promote the construction and development of affordable housing.

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
