VIII. Other Information

It is suggested that applicants visit the Agricultural Resource Marketing Center (AgMRC) Web site (<http://www.agmrc.org>) for additional information on value-added agriculture. AgMRC brings together experts from three of the nation's leading agricultural universities—Iowa State University, Kansas State University and the University of California—into a dynamic, electronically based center to create and present information about value-added agriculture. The center draws on the abilities, skills and knowledge of leading economists, business strategists and outreach specialists to provide reliable information needed by independent producers to achieve success and profitability in value-added agriculture. Partial support for the center is derived from a grant administered by RBS.

Dated: May 25, 2004.

John Rosso,

Administrator, Rural Business-Cooperative Service.

BILLING CODE 3410-XY-P

DEPARTMENT OF COMMERCE**International Trade Administration****North American Free-Trade Agreement (NAFTA), Article 1904 Binational Panel Reviews**

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of decision of panel.

SUMMARY: On June 8, 2004 the binational panel issued its decision in the review of the final scope ruling made by the International Trade Administration, respecting Circular Welded Non-Alloy Steel Pipe from

Mexico, NAFTA Secretariat File Number USA-MEX-98-1904-05. The binational panel affirmed the International Trade Administration's determination on remand. Copies of the panel decision are available from the U.S. Section of the NAFTA Secretariat.

FOR FURTHER INFORMATION CONTACT:

Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686). The panel review in this matter has been conducted in accordance with these Rules.

Panel Decision: The panel affirmed the International Trade Administration's determination on remand respecting Circular Welded Non-Alloy Steel Pipe from Mexico. The panel has directed the Secretary to issue a Notice of Final Panel Action on the 11th day following the issuance of the decision.

Dated: June 8, 2004.

Caratina L. Alston,

U.S. Secretary, NAFTA Secretariat.

BILLING CODE 3510-GT-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[Docket No. 052404C]

New England Fishery Management Council; Public Hearings; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearings on Amendment 2 to the Monkfish Fishery Management Plan (FMP); request for comments; correction.

SUMMARY: On May 28, 2004, NMFS published a notice announcing that the New England and Mid-Atlantic Fishery Management Councils (Councils) would be conducting public hearings on Amendment 2 to the Monkfish FMP. The notice inadvertently referred to the public hearings on Amendment 2 as "scoping meetings." In addition, the notice provided an incorrect fax number for the New England Fishery Council. This action corrects those errors.

DATES: Written comments on the proposals will be accepted through July 28, 2004. The public hearings will begin Tuesday, June 15, 2004, and end on June 24, 2004. See **SUPPLEMENTARY INFORMATION** of the May 28, 2004, **Federal Register** notice for meeting dates, times, and locations.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, (978) 465-0492.

SUPPLEMENTARY INFORMATION: On May 28, 2004 (69 FR 30624), NMFS published a notice in the **Federal Register** announcing that the New England and Mid-Atlantic Fishery Management Councils (Councils) proposed to take action to address the requirements of the Magnuson-Stevens Fishery Conservation and Management Act, as amended by the Sustainable Fisheries Act of 1996, as well as a number of issues concerning the management of the monkfish fishery identified during the public scoping process. The May 27, 2004, notification inadvertently identified the upcoming public hearings as "scoping meetings". According to the Department's environmental review procedures for complying with the National Environmental Policy Act, the formal scoping process officially begins with publication in the **Federal Register** of a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS). NMFS published an NOI to prepare a Monkfish Supplemental EIS and notice of public scoping on December 10, 2001 (66 FR 63666). A notice of supplemental scoping meetings was published in the **Federal Register** on August 23, 2004 (67 FR 54609). The Councils have concluded their formal scoping process for Amendment 2. On April 30, 2004, a Notice of Availability for the Draft Supplemental EIS for Amendment 2 was published in the **Federal Register**. The New England and Mid-Atlantic Councils will now hold a series of public hearings to solicit comments on

the proposals contained in the DSEIS and its related public hearing document.

Also, the May 28th **Federal Register** notification indicated that comments on the public hearing document may be faxed to the New England Council. However, an incorrect fax number was provided. This document corrects those errors.

In FR Doc. E4-1223 appearing on page 30624 in the **Federal Register** of Friday, May 28, 2004, the following corrections are made:

1. On page 30624, in the first column, in the **ADDRESSES** section, line 11, remove the fax number "(978) 465-0492" and in its place add "(978) 465-3116".

2. On page 30624, in the first column, in the **ADDRESSES** section, line 12, remove the word "scoping".

3. On page 30624, in the third column, under section "Meeting Dates, Times, and Locations", second line of the first sentence in this section, remove the word "scoping".

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 8, 2004.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 060804D]

Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Scientific and Statistical Committee (SSC) and NOAA Fisheries will hold a workshop to promote the exchange of data, information, ideas, and solutions for recreational catch per unit effort (CPUE) statistics as indicators of West Coast groundfish stock abundance.

DATES: The two-day workshop will begin at 8:30 a.m. on Tuesday, June 29 and will continue until business for the day is completed. The workshop will reconvene at 8:30 a.m. on Wednesday, June 30, 2004 and will continue until business is completed. Public comments will be allowed at times to be specified by the chair.

ADDRESSES: The workshop will be held at the Southwest Fisheries Science Center, Meeting Room 188, 110 Shaffer Road, Santa Cruz, CA 95060.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 200, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Dr. Steve Ralston, SSC Groundfish Subcommittee Chair, telephone: (831) 420-3949; Mr. John DeVore, Pacific Fishery Management Council, telephone: (503) 820-2280; or Ms. Stacey Miller, Northwest Fisheries Science Center, telephone: (206) 860-3480.

SUPPLEMENTARY INFORMATION: The purpose of the Recreational CPUE Statistics Workshop is to review existing sources of recreational data on the West Coast and to reach a broad consensus and understanding of the availability of recreational fisheries data and methods to calculate CPUE statistics for use in stock assessments. The importance of recreational CPUE statistics in groundfish stock assessments has grown in recent years. Council-sponsored assessments of bocaccio, cabezon, cowcod, black rockfish, lingcod, and yelloweye rockfish have all evaluated time series of recreational CPUE as indicators of stock abundance. As more of the minor groundfish species become assessed, CPUE statistics derived from catch rates in sport fisheries will likely play an important role in stock evaluation.

Although non-emergency issues not contained in the meeting agenda may come before the workshop participants for discussion, those issues may not be the subject of formal workshop action during this meeting. Workshop action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the workshop participants' intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.
