**Getronics Wang Company, LCC, Valley View, OH; Notice of Revised Determination on Remand**

The United States Court of International Trade (USCIT) granted the Secretary of Labor's motion for a

voluntary remand for further investigation in *Former Employees of Getronics Wang Co., LLC v. Elaine Chao, U.S. Secretary of Labor*, No. 03-00529.

The Department's initial determination regarding Getronics Wang Co. LLC (hereafter "Getronics") was issued on April 23, 2003, and published in the **Federal Register** on May 7, 2003 (68 FR 24503). The negative determination was based on the finding that the workers did not produce an article within the meaning of section 222 of the Trade Act of 1974. Workers performed data processing and related services for an unaffiliated company.

By letter dated June 2, 2003, the petitioner requested administrative reconsideration. The Notice of Negative Determination Regarding Application for Reconsideration was signed on June 13, 2003, and published in the **Federal Register** on July 7, 2003 (68 FR 40300). The determination was based on the findings that the workers did not produce an article within the meaning of Section 222 of the Trade Act and that the workers were not service providers in direct support of a Trade Adjustment Assistance (TAA) certified firm.

The remand investigation revealed that Getronics has a contract to provide on site services with a TAA certified company, LTV Steel Company, Inc., Cleveland, Ohio (TA-W-40,786; certified March 21, 2002).

### Conclusion

After careful review of the additional facts obtained on the current remand, I conclude that the subject worker group provided services, the worker group is co-located with a trade-certified firm, and there is a contract between the subject firm and the trade-certified firm. In accordance with the provisions of the Trade Act, I make the following certification:

All workers of Getronics Wang Co., LLC, Valley View, Ohio, who became totally or partially separated from employment on or after March 3, 2002, through two years from the issuance of this revised determination, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed in Washington, DC this 2nd day of April, 2004.

#### International Business Machines Corporation, Tulsa, Oklahoma; Notice of Negative Determination Regarding Application for Reconsideration

By application of February 6, 2004, a petitioner requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA). The denial notice applicable to workers of International Business Machines Corporation, Tulsa, Oklahoma was signed on December 2, 2003, and published in the **Federal Register** on January 16, 2004 (69 FR 2622).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The TAA petition was filed on behalf of workers at International Business Machines Corporation, Tulsa, Oklahoma, engaged in accounting services. The petition was denied because the workers' firm does not produce an article within the meaning of section 222 of the Trade Act of 1974. Indeed, IBM does not produce an article at the Tulsa facility.

The petitioner refers to the British Petroleum Accounting Center operated by IBM which was certified eligible for TAA in 1999. The petitioner further states that layoffs at the subject firm can be attributed to the decision of British Petroleum to shift its oil production abroad, consequently, the petitioning workers should be eligible for trade adjustment assistance.

A company official was contacted in regard to these allegations. The official stated that there is no affiliation between the subject facility and British Petroleum. It was also revealed that International Business Machines Corporation, Tulsa, Oklahoma provides accounting services to British Petroleum at many locations in the United States

and abroad out of its own facility in Tulsa, Oklahoma.

The fact that service workers have customers or clients that may be eligible for trade adjustment assistance does not automatically make the service workers eligible for TAA. Before service workers can be considered eligible for TAA, they must be in direct support of an affiliated facility currently certified for TAA or employed on a contractual basis at a location currently certified for TAA. This is not the case for the workers at International Business Machines Corporation, Tulsa, Oklahoma.

The petitioner further alleges that "the center in Tulsa, OK has previously been covered under the TRA program," thus petitioning workers of the subject firm should also be eligible for TAA.

The same workers have been providing the same accounting services at the same Tulsa location for a number of years. However, the identity of their employer has changed twice over the pertinent period. Thus, the Department's records indicate workers, including accountants then working at the Tulsa facility, at AMOCO Exploration and Production, and AMOCO Shared Services, operating in the state of Oklahoma, were certified eligible to apply for adjustment assistance on February 19, 1999 (TA-W-36,309N). That certification was amended on March 14, 1999, to reflect new ownership and a name change to BP/AMOCO, AMOCO Exploration and Production, AMOCO Shared Services, A/K/A AMOCO Production Company, Inc., operating in the state of Oklahoma. Workers certified in that instance were determined to be "engaged in activities related to exploration and production of crude oil and natural gas." That certification expired February 19, 2001. Thus, there is no current certification of eligibility for workers at the Tulsa facility. The previous certification has no bearing on the determination of eligibility at this time.

Department records show no previous certifications for the Tulsa facility on the part of the current owner of the Tulsa facility, International Business Machines Corporation, Tulsa, Oklahoma.

The petitioner finally states that International Business Machines Corporation, Tulsa, Oklahoma has moved a significant number of jobs to India.

Accounting services do not constitute production according to the eligibility requirements for trade adjustment assistance. Thus, the alleged shift of jobs to India is irrelevant to this investigation.
