

the program office, as well as the State Department Geographic Area Office and Public Diplomacy section at the U.S. Embassy overseas, where appropriate. Eligible proposals will be forwarded to panels of Bureau officers for advisory review. Proposals may also be reviewed by the Office of the Legal Adviser or by other Department elements. Final funding decisions are at the discretion of the Department of State's Assistant Secretary for Educational and Cultural Affairs. Final technical authority for assistance awards (grants or cooperative agreements) resides with the Bureau's Grants Officer.

#### *Review Criteria*

Technically eligible applications will be competitively reviewed according to the criteria stated below. These criteria are not rank ordered and all carry equal weight in the proposal evaluation:

1. *Quality of the program idea:* Proposals should exhibit originality, substance, precision, and relevance to the Bureau's mission. Proposals should display an understanding of the goals of the program, as reflected in the priorities of this RFGP. Exchange activities should ensure efficient use of program resources. Proposals should demonstrate a commitment to excellence and creativity in the implementation and management of the program.

2. *Program planning:* A detailed agenda and relevant work plan should explain how objectives will be achieved and should include a timetable for completion of major tasks. Responsibilities of partnering organizations should be clearly described.

3. *Ability to achieve program objectives:* Objectives should be reasonable, feasible, and flexible. Proposals should clearly demonstrate how the institution will meet the program's goals and plan. The substance of workshops, online projects and exchange activities should be described in detail and included as an attachment.

4. *Support of Diversity:* Proposals should demonstrate substantive support of the Bureau's policy on diversity. Achievable and relevant features should be cited in both program administration (selection of schools and participants, program venue and program evaluation) and program content. Applicants should refer to the Bureau's Diversity, Freedom and Democracy Guidelines in the Proposal Submission Instructions (PSI).

5. *Institutional Capacity/Record/Ability:* Applicants should demonstrate knowledge of each country's educational environment and the capacity to recruit U.S. schools.

Proposals should present significant experience in developing school-based Internet programs and exhibit an institutional record of successful exchange programs, including responsible fiscal management and full compliance with all reporting requirements as determined by the Bureau's Grants Division. Proposed personnel and institutional resources should be adequate and appropriate to achieve the program goals and objectives.

6. *Multiplier Effect/Impact:* The program should strengthen long-term mutual understanding and facilitate curriculum reform. Applicants should detail how schools will share newly-acquired knowledge and skills with others.

7. *Program Monitoring and Evaluation:* Proposals must include a plan and methodology to evaluate the program's successes and challenges, both as the activities unfold and at the end of the program. The evaluation plan should show a clear link between program objectives and expected outcomes, and should include a description of performance indicators and measurement tools. Applicants should provide draft questionnaires or other techniques for use in surveying schools/participants to facilitate the demonstration of results. The grantee organization will indicate its willingness to submit periodic progress reports in accordance with the program office's expectations.

8. *Follow-on and Sustainability:* Proposals should provide a strategy for the continuation of the schools' capacity to implement Internet access and online linkages without the Bureau's financial support. The proposal should address continued integrated use of computers and the Internet in participating schools.

9. *Cost-effectiveness/Cost sharing:* The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. While lower "per school" figures will be more competitive, the Bureau expects all figures to be realistic. All other items should be necessary and appropriate. Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.
