Proposed Project

2004 American Indian Adult Tobacco Survey Pilot Test—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

The purpose of this project is to test and pilot a culturally appropriate Adult Tobacco Survey questionnaire for American Indians and Alaska Natives. This questionnaire will expand data and existing knowledge of tobacco use among American Indians and Alaska Natives in order to benefit tobacco use and prevention surveillance at a tribal, state, and/or regional level. The questions will help to narrow existing gaps in knowledge of tobacco use among different tribes and inform development of tribal-specific interventions.
