pursuant to the Commission's February 11, 2004 order, in Docket No. ER03–600–000, 106 FERC ¶ 61,116. CSC LLC requests an effective date of February 11, 2004.

CSC LLC states that a copy of this filing has been mailed to each person designated on the official service list compiled by the Secretary of the Commission in Docket No. ER03–600–000

Comment Date: April 12, 2004.

5. PJM Interconnection, L.L.C.

[Docket No. ER03-1101-003]

Take notice that on March 22, 2004, PJM Interconnection, L.L.C. (PJM) filed the 180-day follow-up report, as well as the first of four six-month reports, concerning PJM's credit policy for virtual bidders, as required by the Commission's September 22, 2003 order in PJM Interconnection, L.L.C., 104 FERC ¶ 61,309 (2003).

PJM states that copies of this filing have been served on all persons listed on the official service list compiled by the Secretary in this proceeding.

Comment Date: April 12, 2004.

6. Pacific Gas and Electric Company

[Docket No. ER04-377-001]

Take notice that on March 22, 2004, Pacific Gas and Electric Company (PG&E) tendered for filing a revised Appendix and Exhibit to the Generator Special Facilities Agreement (GSFA) between PG&E and Sunrise Power Company, LLC (Sunrise II) (collectively, Parties), and submitted the GSFA and the Generator Interconnection Agreement (GIA) for redesignation. PG&E states that the revised Appendix A and Exhibit 1 reclassify certain work performed and that the filing does not modify any rate levels. PG&E also states that the Agreements were originally accepted for filing by the Commission in FERC Docket No. ER00-3294-001 and designated as Service Agreement No. 45 under FERC PG&E Electric Tariff, Sixth Revised Volume No. 5. PG&E has requested certain waivers.

PG&E states that copies of this filing have been served upon the parties of record in FERC Docket Nos. ER03–1362–000 and ER04–377–000, Sunrise II, La Paloma Power Company, LLC, the California Independent System Operator Corporation, and the California Public Utilities Commission.

Comment Date: April 12, 2004.

7. Midwest Independent Transmission System Operator, Inc.

[Docket No. ER04-665-000]

Take notice that on March 22, 2004, Midwest Independent Transmission System Operator, Inc. (Midwest ISO) pursuant to section 205 of the Federal Power Act and section 35.12 of the Commission's regulations, 18 CFR 35.12 (2003), submitted for filing an Interconnection and Operating Agreement among Adrian Public Utilities, the Midwest ISO and Interstate Power and Light Company, a whollyowned subsidiary of Alliant Energy Corporation.

Midwest ISO states that a copy of this filing was served on all parties.

Comment Date: April 12, 2004.

8. NorthWestern Energy

[Docket No. ER04-666-000]

Take notice that on March 22, 2004, NorthWestern Energy, a division of NorthWestern Corporation, tendered for filing a Notice of Cancellation pursuant to 18 CFR 35.15, to reflect cancellation of its FERC Electric Rate Schedule 34, which is an Electric Service Agreement for Emergency-Type Service with East River Electric Power Cooperative (East River). NorthWestern Energy states that the service originally provided under Rate Schedule 34 is now being provided under a new Electric Service Agreement for Emergency-Type Service entered into between NorthWestern Energy and East River on March 3, 2004.

Comment Date: April 12, 2004.

9. Southern California Edison Company

[Docket No. ER04-667-000]

Take notice, that on March 22, 2004, Southern California Edison Company (SCE) tendered for filing the unexecuted Kirkwall Substation Agreement (Kirkwall Agreement) and a revised Service Agreement for Wholesale Distribution Service (Service Agreement) between SCE and the City of Azusa, California (Azusa). SCE requests the Kirkwall Agreement and the revised Service Agreement become effective on March 23, 2004.

The Kirkwall Agreement and the revised Service Agreement specify the terms and conditions under which SCE will provide wholesale Distribution Service from the California Independent System Operator Controlled Grid at SCE's Rio Hondo Substation to a new SCE–Azusa interconnection at Kirkwall Substation.

SCE states that copies of this filing were served upon the Public Utilities Commission of the State of California, and Azusa.

Comment Date: April 12, 2004.

Standard Paragraph

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC

20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at http:// www.ferc.gov, using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number filed to access the document. For assistance, call (202) 502-8222 or TTY, (202) 502-8659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Magalie R. Salas,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2069-007 Arizona]

Arizona Public Service Company; Notice of Availability of Final Environmental Assessment

March 26, 2004.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for surrender of license for the major, constructed Childs Irving Hydroelectric Project. The project is located on Fossil Creek, in Yavapai and Gila counties, Arizona. The project is located entirely on lands of the National Forest System: It occupies 326.8 acres within the Coconino National Forest and 17.2 acres within the Tonto National Forest. The Commission staff has prepared a Final Environmental Assessment (FEA) on the license surrender.

The FEA contains the staff's analysis of the potential environmental impacts of the retirement of the project and the removal of most of the project facilities, and concludes that surrendering the license, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at http://www.ferc.gov using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at

FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659.

You may also register online at http://www.ferc.gov/docs-filing/ esubscription.asp to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2232-457]

Duke Power Company; Notice of Availability of Environmental Assessment

March 23, 2004.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (19 CFR Part 380), Commission staff have prepared an environmental assessment (EA) that analyzes the environmental impacts of allowing Duke Power Company, licensee for the Catawba-Wateree Hydroelectric Project, to grant an updated Water Withdrawal Easement to the City of Mount Holly, North Carolina for project property within Mountain Island Lake that will supercede an existing easement. The updated easement will allow Mount Holly to install and maintain new intake screens on existing water intake pipes at its Raw Water Intake Pumping Station at Mountain Island Lake, and allow Mount Holly to increase water withdrawals from the currently-permitted rate of 3.0 million gallons per day (MGD) to maximum of 13.5 MGD. Increases in water withdrawal would occur incrementally over time. The EA contains staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the Proposed Action would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-Project Use of Project Lands and Waters," which was issued March 23, 2004, and is available for review and reproduction at the Commission' Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at http://www.ferc.gov using the "eLibrary" link. Enter the docket number (prefaced by P-) and excluding the last thee digits, in the docket number field to access the document. For assistance, contact FERC Online Support at

FERCOnlineSupport@ferc.gov or toll-free at (866) 208–3676, or for TTY, contact (202) 502–8659.

Federal Energy Regulatory Commission

[Project No. 12451-001]

SAF Hydroelectric, LLC; Notice of Application Accepted for Filing; Soliciting Comments, Motions To Intervene And Protests

March 26, 2004.

Take notice that the following hydroelectric application has been filed with Commission and is available for public inspection:

- a. Type of Application: Original Major
- b. Project No.: 12451-001.
- c. Date filed: January 20, 2004.
- d. Applicant: SAF Hydroelectric, LLC. e. Name of Project: Lower St. Anthony Falls Hydroelectric Project.
- f. Location: On the Mississippi River, in the Town of Minneapolis, Hennepin County, Minnesota. The project affects federal lands.

- g. Filed Pursuant to: Federal Power Act, 16 U.S.C. §§ 791(a)–825(r).
- h. Applicant Contact: Douglas A. Spaulding P.E., Spaulding Consultants, 1433 Utica Avenue South, Suite 162, Minneapolis, MN 55416, (952) 544–8133 or Robert Larson, 33 South 6th Street, Minneapolis, MN 55402, (612) 343–2913.
- i. FERC Contact: Kim Carter at (202) 502–6486, or kim.carter@ferc.gov.
- j. Deadline for filing comments, motions to intervene, and protests: 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, Motions to Intervene and Protests may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filing. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (http://www.ferc.gov) under the "e-Filing" link. After logging into the e-Filing system, select "Comment on Filing" from the Filing Type Selection screen and continue with the filing process."

k. You may also register online at http://www.ferc.gov/esubscribenow.htm to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

l. This application is not ready for environmental analysis at this time.

m. Description of Project: The proposed Lower St. Anthony Falls Hydroelectric Project would be located at the U.S. Army Corps of Engineers (Corps) Lower St. Anthony Falls Lock and Dam and would utilize 5.9 acres of Corps lands. The generation turbines would be located in an auxiliary lock chamber adjacent to the Corp's main lock chamber. An auxiliary building, storage yard, and buried transmission line would occupy additional Corps lands. The project would operate according to the Corp's present operating criteria, which maintains a constant water surface elevation of
