

W] extending southeast to a point on the opposite shore [37°46'28" N, 122°23'34" W], and the other line drawn from a point on the north shore of Mission Creek [37°46'34" N, 122°23'30" W] extending southeast to a point on the opposite shore [37°46'33" N, 122°23'28" W] [Datum: NAD 83]

(b) *Effective Period.* The safety zone will be in effect from February 15, 2005 through December 31, 2005. If the need for this safety zone ends before the scheduled termination time, the Captain of the Port will cease enforcement of the safety zone and will announce that fact via Broadcast Notice to Mariners.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into, transit through, or anchoring within this zone by all vessels is prohibited, unless specifically authorized by the Captain of the Port San Francisco Bay, or his designated representative.

(2) All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port or the designated on-scene patrol personnel. Patrol personnel comprise commissioned, warrant, and petty officers of the Coast Guard onboard Coast Guard, Coast Guard Auxiliary, local, state, and federal law enforcement vessels. Upon being hailed by U.S. Coast Guard patrol personnel by siren, radio, flashing light, or other means, the operator of a vessel shall proceed as directed.

Dated: October 27, 2004.

Gordon A. Loebel,

Commander, U.S. Coast Guard, Acting Captain of the Port, San Francisco Bay, California.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 194

[FRL-7835-6]

Central Characterization Project Waste Characterization Program Documents Applicable to Transuranic Radioactive Waste From the Savannah River Site Proposed for Disposal at the Waste Isolation Pilot Plant

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability; opening of public comment period.

SUMMARY: The Environmental Protection Agency (EPA, or "we") is announcing the availability of, and soliciting public

comments for 30 days on, Department of Energy (DOE) documents on waste characterization programs applicable to certain transuranic (TRU) radioactive waste at the Savannah River Site (SRS) proposed for disposal at the Waste Isolation Pilot Plant (WIPP). The documents are procedures and other materials related to the Central Characterization Project (CCP), established by DOE to augment the ability of TRU waste sites to characterize and certify the waste in accordance with EPA's WIPP Compliance Criteria. The documents are available for review in the public dockets listed in **ADDRESSES**. We will use these documents to evaluate the CCP activities at SRS to characterize SRS-generated contact-handled (CH) retrievably-stored TRU debris waste during an inspection conducted the week of October 25, 2004. The purpose of the inspection is to verify that the CCP can properly characterize SRS-generated contact-handled (CH) TRU debris waste, consistent with the WIPP Compliance Criteria and Condition 3 of EPA's final certification decision for the WIPP. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

DATES: The EPA is requesting public comment on these documents. Comments must be received by EPA's official Air Docket on or before December 6, 2004.

ADDRESSES: Comments may be submitted by mail to: EPA Docket Center (EPA/DC), Air and Radiation Docket, Environmental Protection Agency, EPA West, Mail Code 6102T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. Attention Docket ID No. OAR-2004-0430. Comments may also be submitted electronically, by facsimile, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I.B of the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Ed Feltcorn, Office of Radiation and Indoor Air, (202) 343-9422. You can also call EPA's toll-free WIPP Information Line, 1-800-331-WIPP or visit our Web site at <http://www.epa.gov/radiation/wipp>.

SUPPLEMENTARY INFORMATION:

I. General Information

A. How Can I Get Copies of This Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under Docket ID No. OAR-2004-0430.

The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Air and Radiation Docket in the EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1742. These documents are also available for review in paper form at the official EPA Air Docket in Washington, DC, Docket No. A-98-49, Category II-A2, and at the following three EPA WIPP informational docket locations in New Mexico: in Carlsbad at the Municipal Library, hours: Monday-Thursday, 10 a.m.-9 p.m., Friday-Saturday, 10 a.m.-6 p.m., and Sunday, 1 p.m.-5 p.m.; in Albuquerque at the Government Publications Department, Zimmerman Library, University of New Mexico, hours: vary by semester; and in Santa Fe at the New Mexico State Library, hours: Monday-Friday, 9 a.m.-5 p.m. As provided in EPA's regulations at 40 CFR part 2, and in accordance with normal EPA docket procedures, if copies of any docket materials are requested, a reasonable fee may be charged for photocopying.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket,

will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the Docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

For additional information about EPA's electronic public docket visit EPA Dockets online or see 67 FR 38102, May 31, 2002.

B. How and To Whom Do I Submit Comments?

You may submit comments electronically, by mail, by facsimile, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your comment. Please ensure

that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. However, late comments may be considered if time permits.

1. *Electronically.* If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket>, and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet Home Page, select "Information Sources," "Dockets," and "EPA Dockets." Once in the system, select "search," and then key in Docket ID No. OAR-2004-0430. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by electronic mail (e-mail) to *a-and-r-docket@epa.gov*, Attention Docket ID No. OAR-2004-0430. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official

public docket, and made available in EPA's electronic public docket.

2. *By Mail.* Send your comments to: EPA Docket Center (EPA/DC), Air and Radiation Docket, Environmental Protection Agency, EPA West, Mail Code 6102T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. Attention Docket ID No. OAR-2004-0430.

3. *By Hand Delivery or Courier.* Deliver your comments to: Air and Radiation Docket, EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC, Attention Docket ID No. OAR-2004-0430. Such deliveries are only accepted during the Docket's normal hours of operation as identified in Unit I.A.1.

4. *By Facsimile.* Fax your comments to: (202) 566-1741, Attention Docket ID. No. OAR-2004-0430.

C. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at your estimate.
5. Provide specific examples to illustrate your concerns.
6. Offer alternatives.
7. Make sure to submit your comments by the comment period deadline identified.
8. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background

DOE is operating the WIPP near Carlsbad in southeastern New Mexico as a deep geologic repository for disposal of TRU radioactive waste. As defined by the WIPP Land Withdrawal Act (LWA) of 1992 (Pub. L. 102-579), as amended (Pub. L. 104-201), transuranic (TRU) waste consists of materials containing elements having atomic numbers greater than 92 (with half-lives greater than twenty years), in concentrations greater than 100 nanocuries of alpha-emitting TRU isotopes per gram of waste. Much of the existing TRU waste consists of items contaminated during the

production of nuclear weapons, such as rags, equipment, tools, and sludges.

On May 13, 1998, EPA announced its final compliance certification decision to the Secretary of Energy (published May 18, 1998, 63 FR 27354). This decision stated that the WIPP will comply with EPA's radioactive waste disposal regulations at 40 CFR part 191, subparts B and C.

The final WIPP certification decision includes conditions that (1) prohibit shipment of TRU waste for disposal at WIPP from any site other than the Los Alamos National Laboratory (LANL) until the EPA determines that the site has established and executed a quality assurance program, in accordance with §§ 194.22(a)(2)(i), 194.24(c)(3), and 194.24(c)(5) for waste characterization activities and assumptions (Condition 2 of Appendix A to 40 CFR part 194); and (2) prohibit shipment of TRU waste for disposal at WIPP from any site other than LANL until the EPA has approved the procedures developed to comply with the waste characterization requirements of § 194.22(c)(4) (Condition 3 of Appendix A to 40 CFR part 194). The EPA's approval process for waste generator sites is described in § 194.8. As part of EPA's decision-making process, the DOE is required to submit to EPA appropriate documentation of quality assurance and waste characterization programs at each DOE waste generator site seeking approval for shipment of TRU radioactive waste to WIPP. In accordance with § 194.8, EPA will place such documentation in the official Air Docket in Washington, DC, and informational docket in the State of New Mexico for public review and comment.

EPA will perform an inspection of the TRU waste characterization activities performed by the DOE's Central Characterization Project (CCP) staff at the Savannah River Site (SRS) in accordance with Condition 3 of the WIPP certification. We will evaluate the adequacy, implementation, and effectiveness of the CCP technical activities contracted by SRS for characterization of the disposal of retrievably-stored TRU debris waste at the WIPP. The overall program adequacy and effectiveness of CCP documents will be based on the following DOE documents: (1) CCP-PO-001—Revision 8, 3/15/04—CCP Transuranic Waste Characterization Quality Assurance Project Plan and (2) CCP-PO-002—Revision 9, 3/15/04—CCP Transuranic Waste Certification Plan. EPA has placed these documents pertinent to the SRS inspection in the public docket described in **ADDRESSES**. In accordance with 40 CFR 194.8, EPA is providing the public 30 days to comment on these documents. The inspection is scheduled to take place the week of October 25, 2004.

The EPA inspectors at SRS will evaluate the quality of the waste characterization program via testing, interviews of waste characterization (WC) personnel, review of WC procedures, and inspection of WC equipment used to characterize retrievably-stored debris waste. The inspection will focus on real-time radiography (RTR) equipment as well as visual examination (VE) techniques as implemented by the CCP at SRS.

This is EPA's first **Federal Register** notice announcing an inspection following the Agency's revisions to the WIPP Compliance Criteria (40 CFR part 194). The final rule for these provisions

was published on July 16, 2004 (69 FR 42571), and had an effective date of October 14, 2004. The CCP at SRS has already been previously approved under our previous inspections regime. Therefore, the SRS-CCP inspection outlined in this notice will be held in accordance with the requirements for previously approved waste generator sites, as described in Section § 194.8(c) of our final revisions.

If EPA determines as a result of the inspection that the proposed CCP waste characterization processes and programs used at SRS adequately control the characterization of transuranic waste, we will notify DOE by letter and place the letter in the official Air Docket in Washington, DC, as well as in the informational docket locations in New Mexico. A letter of approval will allow DOE to dispose of transuranic waste from SRS/CCP to the WIPP. The EPA will not make a determination of compliance prior to the inspection or before the 30-day comment period has closed.

Information on the certification decision is filed in the official EPA Air Docket, Docket No. A-93-02 and is available for review in Washington, DC, and at three EPA WIPP informational docket locations in New Mexico. The docket in New Mexico contain only major items from the official Air Docket in Washington, DC, plus those documents added to the official Air Docket since the October 1992 enactment of the WIPP LWA.

Dated: November 1, 2004.

Robert Brenner,

Acting Assistant Administrator for Air and Radiation.
