

copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.
2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.
3. Copies of the bill of lading that accompanies each shipment of the TME substance.
4. To address inhalation concerns, employees exposed to the TME substance's vapor must wear a respirator with an assigned protection factor (APF) of 25.

#### V. What was EPA's Risk Assessment for this TME?

EPA identified concerns for inhalation exposure based on analogs. However, during processing and use, vapor or mist exposure to workers will be prevented by use of a gas/vapor respirator with an APF of 25. Therefore, the test market activities will not present an unreasonable risk of injury to health. EPA identified no significant environmental concerns for the test market substance based on no releases to water.

#### VI. Can EPA Change Its Decision on this TME in the Future?

Yes. The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention cast significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to human health or the environment.
