

ACTION: Notice and request for comments.

SUMMARY: This notice announces the availability of the EPA document identifying segments and associated E. coli/fecal coliform pollutants in the Mahoning River, in Portage, Trumbull, and Mahoning Counties in Ohio, and requests public comment.

The TMDL was developed to attain water quality standards and designated uses (primary contact standard, recreational use) established for the Mahoning River, which is on the Ohio 2004 303(d) list. Segments and pollutants were listed and prioritized by the State for TMDL assessment, and recreational use and E.coli/fecal coliform impairments were identified. TMDLs specify the maximum amount of a pollutant a waterbody can assimilate and still meet water quality standards. Based upon that maximum amount, TMDLs allocate pollutant loads to sources and allocate a margin of safety (MOS). In this way, the TMDL process links the development and implementation of control actions to the attainment and maintenance of water quality standards and designated uses. This TMDL was developed by EPA, Region 5, at the request of the State of Ohio. EPA is providing the public the opportunity to review its document in accordance with section 303(d) of the Clean Water Act (CWA), 33 U.S.C. 1313(d), and 40 CFR 130.7. EPA will consider public comments in its final document.

DATES: Comments on this document must be received in writing by August 28, 2004.

ADDRESSES: Hard copies are available at: Public Library of Youngstown and Mahoning County, Main Library, 305 Wick Avenue, Youngstown, OH 44503-1079; Youngstown State University, William F. Maag Library, One University Plaza, Youngstown, OH 44555-3675.

The website to access this document is <http://www.epa.gov/region5/water/notices.html>. As an alternative, EPA will accept comments electronically. Comments should be sent to the following Internet e-mail address: chruscicki.jean@epa.gov.

FOR FURTHER INFORMATION CONTACT: Jean Chruscicki, Watersheds and Wetlands Branch, at the EPA address noted above or by telephone at (312) 353-1435.

SUPPLEMENTARY INFORMATION: Section 303(d) of the CWA requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish TMDLs according to a priority ranking.

Dated: July 19, 2004.

Acting Director, Water Division, Region 5.

SUPPLEMENTARY INFORMATION: The Equal Employment Opportunity Commission (EEOC) enforces title VII of the Civil Rights Act of 1964, the Equal Pay Act, the Age Discrimination in Employment Act, the Rehabilitation Act, title I of the Americans with Disabilities Act, and the Pregnancy Employment Discrimination Act. Pursuant to its authority under those statutes, EEOC launched the "Freedom to Compete" (FTC) initiative, a national outreach, education and coalition-building strategy designed to complement the agency's enforcement and litigation efforts by identifying EEO practices and programs worthy of emulation. The Commission has built and seeks to further build partnerships and strategic alliances with various stakeholders that can directly and indirectly ensure equal opportunity in the nation's workplaces. One component of this initiative is the Equal Employment Opportunity Commission's "Freedom to Compete" Award. The Award is designed to recognize employers, organizations and entities whose extraordinary efforts embody the EEOC's mission of ensuring individuals the freedom to compete in the workplace on a level playing field regardless of race, color, gender, age, national origin, religion or disability. The Award will be presented to entities that have demonstrated exemplary efforts in promoting free and unfettered access to opportunities in the workplace. The Award will be based on nominations received from the public.

This notice concerns the nomination form which constitutes a collection of information under the Paperwork Reduction Act. A prior notice that the EEOC would be submitting this request

to OMB for approval under the Paperwork Reduction Act was published at 68 FR 67437 (December 2, 2003), allowing for a 60 day comment period. Two comments were received, one from the Equal Employment Advisory Council and one from the National Industry Liaison Group ("NILG"). Both comments praised the EEOC's effort to recognize excellent performance in the EEO area, noting that the proposed collection was both necessary for the EEOC's proper performance and helpful in providing clarity for individuals interested in emulating a particular EEO program or initiative. In addition, NILG suggested that nomination materials be permitted to be filed electronically (the EEOC has adopted this suggestion) and that the EEOC utilize its own internal records to determine if award nominees have any EEO charges pending against them (the EEOC has not adopted this suggestion). The Commission intends to verify charge information for finalists, but believes that self-declaration will materially enhance the application process. Award applicants should be mindful of current charges in drafting nominations so that their presentations will be realistic and can address trends and practical results. For example, the applicant may be able to explain that the number of charges are trending down since implementation or that they particularly addressed a specific type of activity (e.g., sexual harassment) and no new charges have been filed since full implementation. These and other types of relationships between the implemented practice and pending charges may not be obvious to Commission staff from Commission data. Of course, if the information on charges is not readily available (e.g., nominations from third parties), the nominating party can simply explain that the information is not available and the Commission will rely on its own data.

Pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. chapter 35, and OMB regulation 5 CFR 1320.8(d)(1), the Commission solicits public comment on its proposed nomination form to enable it to:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The remainder of this **SUPPLEMENTARY INFORMATION** section provides the public with information it will need to comment on the EEOC proposal. It contains an overview of the information collection and the proposed nomination form.
