Flambeau Hydro LLC; Notice of Availability of Environmental Assessment

August 23, 2004.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47879), Commission staff have reviewed the application for a new license for the Winter Hydroelectric Project, located on the East Fork of the Chippewa River, in Sawyer County, Wisconsin, and have prepared an Environmental Assessment (EA). The EA analyzes the potential environmental effects of relicensing the project and concludes that issuing a new license for the project, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.
