

could be very useful to emergency responders, miners, and construction workers, to name a few.

The purpose of this meeting is to provide an opportunity for an exchange of information between NIOSH and respirator manufacturers, industry representatives, labor representatives, and others with an interest in respiratory protection. Attendees will be given an opportunity to ask questions and submit verbal and written comments they wish to have included in the regulatory record.

Besides providing respiratory protection, multifunction PAPRs must allow wearers to perform their assigned duties without posing additional burdens. Vision, communications, heat exchange, and ability to fit into tight places must meet meaningful testing criteria to have reasonable assurance that they will be acceptable. In addition, loose-fitting PAPR equipment must be able to supply enough filtered air that the wearer does not breathe contaminated air during heavy exertion.

The problem is how to objectively evaluate candidate equipment. Multifunction PAPRs must be evaluated against objective, scientifically valid tests in order to be certified by the Government as reasonably meeting minimum standards. Currently, appropriate standards are not available. Such standards, which address all the elements that go into making the equipment multifunctional, must be developed and validated. The purpose of this meeting is to discuss comprehensive test standards for all elements of multifunction PAPRs.

NIOSH has not determined the final content of its research but is considering that test standards will be needed for:

- (1) Respiration;
- (2) Vision;
- (3) Communications;
- (4) Wear Ability;
- (5) Hearing Protection.

**Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB) and Solicitation of Applications**

*Agency:* Centers for Medicare and Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any

of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR part 1320. This is necessary to ensure compliance with the Trade Act of 2002. We cannot reasonably comply with the normal clearance procedures because of an unanticipated event and public harm.

A part of the President's New Freedom Initiative and Executive Order 13217, the Demonstration to Improve the Direct Service Workforce presents an opportunity for States and community organizations to improve the recruitment and retention of direct service workers. The Centers for Medicare and Medicaid Services is the agency within the Department of Health and Human Services charged with developing and administering this program.

For FY 2003, \$9 million dollars was budgeted to fund this demonstration program and an additional \$3 million is expected to be budgeted for FY 2004. Because funding for this demonstration appears as part of the FY 2003 budget, it is necessary to award grants to States and community-based organizations before October 1, 2003.

We need to seek emergency approval because we need three months between the time that applicants must submit their proposals and the time of award. Overall we are expecting a large volume of grant applications. We will need the three months to sort, review and score the awards and prepare award packages.

CMS is requesting OMB review and approval of this collection by April 21, 2003, with a 180-day approval period. Written comments and recommendations will be accepted from the public if received by the individuals designated below by April 7, 2003.
