### Federal Energy Regulatory Commission

[Docket No. RP96-383-047]

#### Dominion Transmission, Inc.; Notice of Negotiated Rates

April 9, 2003.

Take notice that on March 31, 2003, Dominion Transmission, Inc. (DTI) tendered for filing as part of its FERC Gas Tariff, Fourth Revised Sheet No. 1402, with an effective date of April 1, 2003.

DTI states that the tariff sheet relates to a negotiated rate transaction between DTI and Rochester Gas and Electric corporation (RG&E). DTE states that the transaction provides RG&E with firm transportation service and conforms to the forms of service agreement contained in DTI's tariff. DTI states that the term of the agreement is for a primary term of April 1, 2003, through March 31, 2004, and from year to year thereafter.

DTI states that copies of the filing have been served upon DTI's customers, interested state commissions and on all persons on the official service list.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the

Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.314 or 385.211 of the Commission's rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP03-80-000]

#### Eastern Shore Natural Gas Company; Notice of Application

April 10, 2003.

Take notice that on April 1, 2003, Eastern Shore Natural Gas Company, (Eastern Shore), 417 Bank Lane, Dover, Delaware 19904, filed in Docket No CP03-80-000 an application pursuant to section 7(c) of the Natural Gas Act (NGA), for a certificate of public convenience and necessity to construct and operate certain pipeline facilities in Pennsylvania and Maryland in order to provide additional firm transportation capacity on its system, all as more fully set forth in the application on file with the Commission and open to public inspection. This filing may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link.

Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202)502-8222 or for TTY, call (202)208-1659.

Eastern Shore proposes to construct and operate facilities in three phases, to be placed in service by November 1, 2003, November 1, 2004, and November 1, 2005, respectively.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding. Comments and protests may be filed electronically via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages intervenors to file electronically.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's

environmental mailing list, will receive copies of environmental documents, and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, Commenters will not receive copies of all documents filed by other parties or issued by the Commission, and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important to file comments or to intervene as early in the process as possible.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission Order approving or denying a certificate will be issued.

Any questions regarding the application may be directed to Eric M. Pearson, Manager of Engineering, Eastern Shore Natural Gas Company, 417 Bank Lane, Dover, Delaware 19904, at (302)734-6710, ext. 6506.
