SUPPLEMENTARY INFORMATION:

I. Background

Title 30 CFR 45.3 provides that independent contractors may voluntarily obtain a permanent MSHA identification number by submitting to MSHA their trade name and business address, a telephone number, an estimate of the annual hours worked by the contractor on mine property for the previous calendar year, and the address of record for service of documents upon the contractor. Independent contractors performing services or construction at mines are subject to the Federal Mine Safety and Health Act of 1977 (Mine Act) and are responsible for violations of the Mine Act committed by them or their employees.

Although Independent Contractors are not required to apply for the identification number, they will be assigned one by MSHA the first time they are cited for a violation of the Mine Act. MSHA uses the information to issue a permanent MSHA identification number to the independent contractor.

II. Desired Focus of Comments

MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice, or viewed on the Internet by accessing the MSHA Home page (<http://www.msha.gov>) and then
