Advisory Board on Radiation and Worker Health (ABRWH), National Institute for Occupational Safety and Health

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting:

Name: Advisory Board on Radiation and Worker Health (ABRWH), National Institute for Occupational Safety and Health (NIOSH).

Time and Date: 1:30 p.m.–4:30 p.m., August 18, 2003. 8 a.m.–4:30 p.m., August 19, 2003.

Place: The Westin Cincinnati, 21 East Fifth Street, Cincinnati, Ohio 45202, telephone 513/621–7700, fax 513/852–5690.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 65 people.

Background: The Advisory Board on Radiation and Worker Health ("the Board") was established under the Energy Employees Occupational Illness Compensation Program Act (EEOICPA) of 2000 to advise the President, through the Secretary of Health and Human Services (HHS), on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Board include providing advice on the development of probability of causation guidelines which have been promulgated by HHS as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, evaluation of the scientific validity and quality of dose reconstructions conducted by the National Institute for Occupational Safety and Health (NIOSH) for qualified cancer claimants, and advice on the addition of classes of workers to the Special Exposure Cohort.

In December 2000 the President delegated responsibility for funding, staffing, and operating the Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC. The charter was signed on August 3, 2001 and the President has completed the appointment of members to the Board to ensure a balanced representation on the Board.

Purpose: This board is charged with (a) providing advice to the Secretary, HHS on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS on the scientific validity and quality of dose reconstruction efforts performed for this Program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Matters To Be Discussed: Agenda for this meeting will focus on the Program Status Report; Development of Task Order; Dose Reconstruction Workgroup Report; Status of Procurement; Status of Technical Basis Document/Site Profile Development; Oak Ridge Associated Universities Contract Support Status; and a Scientific Issues Workgroup Report.

Agenda items are subject to change as priorities dictate.

Study Protocol To Develop a Database for Identification and Assessment of Engineering Control of Noise From Powered Hand Tools Used in the Construction Industry

AGENCY: National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (DHHS). ACTION: Notice of request for comments and information on study protocol to develop a database for identification and assessment of engineering control of noise from powered hand tools used in the construction industry.

SUMMARY: NIOSH invites written comments from the public on the research study protocol describing the proposed project. Copies of the study protocol document may be obtained by contacting the individual referenced below. The document may also be obtained in .pdf format at the following Web site: http://www.cdc.gov/niosh/extsupp-mat/powertools/powertools.html.
