the Federal Railroad Administration (FRA). The two locomotives are in very good condition. There is also no record of vandalism on their property.

The field investigation reveals the terrain in the SLC traverses is largely farm grade. The grade of the track is flat with a few short curves.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number 2002–14084) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's web site at http:/ /dms.dot.gov.

Federal Railroad Administration

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From Requirements

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236 as detailed below.

Docket Number FRA-2002-14116

Applicant: Canadian National Railway, Mr. Kenneth J. Bagby, Signals Supervisor, 3460 Bristol Road, Flint, Michigan 48507.

The Canadian National Railway (CN) seeks relief from the requirements of the Rules, Standard and Instructions, Title 49 CFR, Part 236, Section 236.408, to the extent that route locking need not be provided for the "32nd Street Crossover" power-operated switches at milepost 333.28 in the existing traffic control system at Port Huron, Michigan, on the Flint Subdivision, Midwest Division.

Applicant's justification for relief: The installation is not uncommon in the railroad industry and provides all of the requisite components and safety features of a standard interlocking or an electric lock location that would be found in TCS territory. CN has three similar installations.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and contain a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by the docket number and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, 400 7th Street, SW., Room PL-401 (Plaza Level), Washington, DC 20590-0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the internet at the docket facility's Web site at http:/ /dms.dot.gov.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Wilton Scenic Railroad

[Docket Number FRA-2002-14085]

The Wilton Scenic Railroad seeks a permanent waiver of compliance for two MU passenger type locomotives from the requirements of the Safety Glazing Standards, 49 CFR Part 223, which requires certified glazing in all windows, and the requirement to equip the passenger compartments with emergency window exits. The railroad indicates that the MU locomotives numbered RDC 1 and RDC 3 are equipped with glazing material approved for use in Canada. If approved the MU locomotives would be utilized in tourist and scenic train operations between Wilton and Greenfield, New Hampshire, over track owned by the State of New Hampshire and maintained by the Milford Bennington Railroad.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number e.g., Waiver Petition Docket Number FRA–2002–14085) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, 400 7th Street, SW., Room PL–401 (Plaza Level),

Surface Transportation Board [STB Finance Docket No. 34311]

United States Steel Corporation— Acquisition of Control Exemption— Delray Connecting Railroad Company

United States Steel Corporation (U.S. Steel), a noncarrier, has filed a notice of exemption to acquire control, through stock purchase, of Delray Connecting Railroad Company (Delray), a Class III

railroad and a wholly owned subsidiary of National Steel Corporation (National Steel).¹

U.S. Steel owns 100% of Transtar, Inc. (Transtar), a noncarrier holding company and, through that ownership, indirectly owns and controls one Class II and four Class III railroads.²

The transaction is expected to be consummated early in the second quarter of 2003.

U.S. Steel states that: (i) The railroads (Delray and the Transtar Railroads) do not connect; (ii) the transaction is not part of a series of anticipated transactions that would connect these railroads with each other or any railroad in their corporate family; and (iii) the transaction does not involve a Class I carrier. Therefore, the transaction is exempt from the prior approval requirements of 49 U.S.C. 11323. See 49 CFR 1180.2(d)(2).

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. Because U.S. Steel already controls one Class II and four Class III railroads by virtue of its control of Transtar, this grant will be made subject to the labor protection requirements of 49 U.S.C. 11326(b).

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34311, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423–0001. In addition, a copy of each pleading must be served on Richard J.

¹On March 6, 2002, National Steel and several of its subsidiaries filed voluntary petitions for reorganization under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court in the Northern District of Illinois (Case 02–08699). Delray did not file a bankruptcy petition and is not a party to the National Steel bankruptcy proceeding. On January 9, 2003, U.S. Steel announced execution of an Asset Purchase Agreement with National Steel and 12 subsidiaries involving U.S. Steel's acquisition of substantially all of their steelmaking and finishing assets.

²The "Transtar Railroads" are: Birmingham Southern Railroad Company, Elgin, Joliet and Eastern Railway Company (the Class II railroad), The Lake Terminal Railroad Company, McKeesport Connecting Railroad Company, and Union Railroad Company. Common control of these railroads by U.S. Steel (formerly USX Corporation) was authorized by the Board in *USX Corporation—Control Exemption—Transtar, Inc.*, STB Finance Docket No. 33942 (STB served Nov. 30, 2000) and in *Transtar Holdings, L.P.—Corporate Family Exemption—Transtar, Inc.*, STB Finance Docket No. 32411 (STB served Dec. 29, 1993).
