

reallots Channel 288C2 from Laramie, Wyoming, to Timnath, Colorado, as that community's first local aural transmission service. Prior to submission of its rule making request, petitioner's authorization for Station KIMX(FM) was amended by grant of a one-step application to specify operation on Channel 288C2 at Laramie, Wyoming, instead of Channel 288C3. The FM Table of Allotments has not been amended previously to reflect the higher class substitution at Laramie. Additionally, the authorization for Station KIMX(FM) is modified, as requested. See 68 FR 1586 (2003), January 13, 2003. Coordinates used for Channel 288C2 at Timnath, Colorado, are 40-44-31 NL and 105-14-25 WL, representing a transmitter site 31.9 kilometers (19.8 miles) northwest of the community. The specified site location is within the protected areas of the Table Mountain Radio Receiving Zone, Boulder County, Colorado, and requires compliance with section 73.1030(b) of the Commission's rules. With this action, this docketed proceeding is terminated.

DATES: Effective May 19, 2003.

AGENCY: Federal Communications Commission.

ACTION: Final rule; denial of petition for reconsideration.

SUMMARY: This document denies a Petition for Reconsideration and Joint Request for Approval of Option Agreement filed by STG Media, LLC and Pulaski Broadcasting, Inc. directed to the *Report and Order* in this proceeding which allotted Channel 278A to New Hope, Alabama. In doing so, it denied a proposed substitution of Channel 252C1 for Channel 252A at Pulaski, Tennessee, reallocation of Channel 252C1 to Ardmore, Alabama, and modification the license of Station WKSR to specify operation on Channel 252C1 at Ardmore. See 67 FR 59213, September 20, 2002. STG Media was the proponent for the Channel 278A allotment at New Hope, and Pulaski Broadcasting is the licensee of Station WKSR, Pulaski, Tennessee. In the Petition for Reconsideration, STG Media withdraws its interest in the Channel 278A allotment at New Hope, contingent upon approval of the Option Agreement by which STG Media would acquire Station WKSR and that Station WKSR be licensed as a Class C1 facility licensed to Ardmore. In denying the Petition for Reconsideration, the Commission determined that the Option Agreement was inconsistent with Section 1.420(j) of the Rules. With this action, the proceeding is terminated.

Reporting of Information and Documents About Potential Defects; Defect and Noncompliance Reports

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Final rule; partial response to petitions for reconsideration.

SUMMARY: This document responds to some of the issues raised by petitions for reconsideration of some of the provisions of the final rule published on July 10, 2002, that implemented the early warning reporting provisions of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act. Under this rule, motor vehicle and motor vehicle equipment manufacturers will be required to report information and to submit documents about customer satisfaction campaigns and other activities and events that may assist NHTSA to promptly identify defects related to motor vehicle safety. The issues responded to in this document primarily relate to field reports, one-time historical reports, and multiple "substantially similar" platforms.

This document also clarifies several other provisions of the final rule. The agency's response to petitions for reconsideration of other provisions of the final rule will appear in a future notice.
